

## *Seeks candidates for Senior Regulatory Analyst*

### ***About Us...***

The Silicon Valley Clean Energy Authority is a new local public agency formed in March 2016 to bring cleaner energy to residents and businesses in participating communities. Participating jurisdictions include Campbell, Cupertino, Gilroy, Los Altos, Los Altos Hills, Los Gatos, Milpitas, Monte Sereno, Morgan Hill, Mountain View, Saratoga, Sunnyvale and the unincorporated areas of Santa Clara County. SVCE is guided by a Board of Directors, which is comprised of a representative from the governing body of each member community.

The principal purpose of SVCE is to implement a Community Choice Energy (CCE) program for its member communities. SVCE will purchase electricity on the open market from clean generation sources (such as solar, wind, and hydropower) on behalf of customers in its service area. Electricity will still be delivered over the existing transmission system, which will continue to be owned and operated by the current electric utility. Implementing a CCE program helps achieve local community climate actions goals.

SVCE began operations in April 2017 and with the last major phase completed in June 2018 will have over 260,000 customer accounts delivering 4 million MWh's of carbon-free energy. With the agency approaching normal state in operations, we now seek to build the flagship team to roll out programs to further decarbonize as well as create electric grid innovations.

### ***The Position...***

The Senior Regulatory Analyst is responsible for a wide range of Silicon Valley Clean Energy (SVCE) regulatory activities, with particular emphasis on representation of SVCE's interests at the California Public Utilities

Commission (CPUC). The new Senior Regulatory Analyst will:

- Develop high-level policy and responses for key regulatory issues affecting SVCE, including strategy and prioritization of regulatory and legislative action for Manager of Regulatory and Legislative Effectiveness and CEO consideration.
- Represent SVCE in regulatory proceedings through preparation of data requests, written responses, position papers, analytical models, testimony, and exhibits.
- Track, review, analyze and summarize filings prepared by utilities and other entities that could impact SVCE and its customers.
- Track, analyze and interpret regulatory proposals and other policy issues with an eye toward impact on and response from SVCE.
- Under direction of the Manager of Regulatory and Legislative Effectiveness, work closely with technical experts and external regulatory counsel to develop effective and persuasive communications before the CPUC, California Energy Commission, California Air Resources Board, and any other legal or regulatory body as may be needed.

### ***The Ideal Candidate...***

The new Senior Regulatory Analyst will have knowledge of California electric utility regulatory issues, CPUC regulatory practices, protocols, and procedures; California utility rate design, electric resource planning, demand resource solutions and regulatory relations; California legislative process and protocols; Communications portals and web-based resources for regulatory and legislative activity; Depending upon the assignment, principles and practices in the areas of energy efficiency, energy resources and procurement, or other to be determined areas.

The qualified candidate will possess:

**Education:** A Bachelor's Degree from an accredited university or college in economics, business administration, environmental science, public policy or a related field. A Master's Degree in economics, business administration, environmental science, public policy or a related field can substitute for up to one year of the required experience.

**Experience:** Four (4) years of progressively responsible experience in regulatory affairs at an electric utility, regulatory agency, or legislative office with emphasis on electric procurement issues, energy efficiency, energy market structure, or a closely related field.

**Certification:** Possession of a valid Class C California driver's license and a satisfactory driving record at the time of hire.

### ***Compensation and Benefits...***

\$7,540 - \$11,896 monthly, DOQ, plus a competitive benefits package.

### ***Application and Selection Process...***

The position is open until filled with initial screening beginning in June. To be considered for this position, please submit a SVCE application, detailed resume, cover letter, and three professional references to:

Shellie Anderson  
Bryce Consulting, Inc.  
3436 American River Drive, Ste. 7A  
Sacramento, CA 95864  
Tel: 916-974-0199 Fax: 916-974-0224  
Email: sanderson@bryceconsulting.com

Following the filing date, resumes will be screened in relation to the criteria outlined in this brochure and the class specification. Candidates deemed to have the most relevant qualifications will proceed with the selection process which may include a written examination, oral presentation, oral interview, or a combination.

The full class description and an SVCE application can be found at: [www.SVCleanEnergy.org/Jobs](http://www.SVCleanEnergy.org/Jobs)
