**Style:** Craftsman Ranch  
**Year Built:** 1947  
**Remodeled:** 2017

**Heat Pump Water Heater  
& Electric Vehicle Charging**

*"Knowing that my home is being powered with clean electricity from carbon-free sources, provided by SV Clean Energy, it was a no brainer for us to get rid of the final pollution-causing appliances in our home. Becoming fully-electric has given us a sigh of relief. We are doing our part to fight climate change, while also making our home safer."*

- Sparky Joule
