SVCE GLOSSARY OF TERMS

CAISO – California Independent System Operator - a non-profit independent system operator that oversees the operation of the California bulk electric power system, transmission lines and electricity market generated and transmitted by its members (~80% of California’s electric flow). Its stated mission is to “operate the grid reliably and efficiently, provide fair and open transmission access, promote environmental stewardship and facilitate effective markets and promote infrastructure development. CAISO is regulated by FERC and governed by a five-member governing board appointed by the governor.

CALCCA – California Community Choice Association – Association made up of Community Choice Aggregation (CCA) groups which represents the interests of California’s community choice electricity providers.

CARB – California Air Resources Board – The CARB is charged with protecting the public from the harmful effects of air pollution and developing programs and actions to fight climate change in California.

CEC – California Energy Commission

CPUC – California Public Utility Commission

C&I – Commercial and Industrial – Business customers

CP – Compliance Period – Time period to become RPS compliant, set by the CPUC (California Public Utilities Commission)

DA – Direct Access – An option that allows eligible customers to purchase their electricity directly from third party providers known as Electric Service Providers (ESP).

DA Cap – the maximum amount of electric usage that may be allocated to Direct Access customers in California, or more specifically, within an Investor-Owned Utility service territory.

DA Lottery – a random drawing by which DA waitlist customers become eligible to enroll in DA service under the currently-applicable Direct Access Cap.

DA Waitlist – customers that have officially registered their interest in becoming a DA customer but are not yet able to enroll in service because of DA cap limitations.

DAC – Disadvantaged Community

DASR – Direct Access Service Request – Request submitted by C&I to become direct access eligible.

Demand - The rate at which electric energy is delivered to or by a system or part of a system, generally expressed in kilowatts (kW), megawatts (MW), or gigawatts (GW), at a given instant or averaged over any designated interval of time. Demand should not be confused with Load or Energy.

DER – Distributed Energy Resource – A small-scale physical or virtual asset (e.g. EV charger, smart thermostat, behind-the-meter solar/storage, energy efficiency) that operates locally and is connected to a larger power grid at the distribution level.

Distribution - The delivery of electricity to the retail customer’s home or business through low voltage distribution lines.

DLAP – Default Load Aggregation Point – In the CAISO’s electricity optimization model, DLAP is the node at which all bids for demand should be submitted and settled. SVCE settles its CAISO load at the PG&E DLAP as SVCE is in the PG&E transmission access charge area.

DR – Demand Response - An opportunity for consumers to play a significant role in the operation of the electric grid by reducing or shifting their electricity usage during peak periods in response to time-based rates or other forms of financial incentives.

DWR – Department of Water Resources – DWR manages California’s water resources, systems, and infrastructure in a responsible, sustainable way.

ELCC – Effective Load Carrying Capacity – The additional load met by an incremental generator while maintaining the same level of system reliability. For solar and wind resources the ELCC is the amount of capacity which can be counted for Resource Adequacy purposes.

EPIC – Electric Program Investment Charge – The EPIC program was created by the CPUC to support investments in clean energy technologies that provide benefits to the electricity ratepayers of PG&E, San Diego Gas & Electric Company (SDG&E), and Southern California Edison Company (SCE)

ERRA – Energy Resource Recovery Account – ERRA proceedings are used to determine fuel and purchased power costs which can be recovered in rates. The utilities do not earn a rate of return on these costs, and only recover actual costs. The costs are forecast for the year ahead. If the actual costs are lower than forecast, then the utility gives money back, and vice versa.

ESP – Energy Service Provider - An energy entity that provides service to a retail or end-use customer.

EV – Electric Vehicle

GHG – Greenhouse gas - water vapor, carbon dioxide, tropospheric ozone, nitrous oxide, methane, and chlorofluorocarbons (CFCs). A gas that causes the atmosphere to trap heat radiating from the earth. The most common GHG is Carbon Dioxide, though Methane and others have this effect as well.

GRC – General Rate Case – Proceedings used to address the costs of operating and maintaining the utility system and the allocation of those costs among customer classes. For California’s three large IOUs, the GRCs are parsed into two phases. Phase I of a GRC determines the total amount the utility is authorized to collect, while Phase II determines the share of the cost each customer class is responsible and the rate schedules for each class. Each large electric utility files a GRC application every three years for review by the Public Advocates Office and interested parties and approval by the CPUC.

GWh – Gigawatt-hour - The unit of energy equal to that expended in one hour at a rate of one billion watts. One GWh equals 1,000 megawatt-hours.

IEP – Independent Energy Producers – California’s oldest and leading nonprofit trade association, representing the interest of developers and operators of independent energy facilities and independent power marketers.

IOU – Investor Owned Utility – A private electricity and natural gas provider.

IRP – Integrated Resource Plan – A plan which outlines an electric utility’s resource needs in order to meet expected electricity demand long-term.

kW – Kilowatt – Measure of power where power (watts) = voltage (volts) x amperage (amps) and 1 kW = 1000 watts

kWh – Kilowatt-hour – This is a measure of consumption. It is the amount of electricity that is used over some period of time, typically a one-month period for billing purposes. Customers are charged a rate per kWh of electricity used.

LCFS – Low Carbon Fuel Standard – A CARB program designed to encourage the use of cleaner low-carbon fuels in California, encourage the production of those fuels, and therefore, reduce greenhouse gas emissions.

LCR – Local (RA) Capacity Requirements – The amount of Resource Adequacy capacity required to be demonstrated in a specific location or zone.

LMP – Locational Marginal Price – Each generator unit and load pocket is assigned a node in the CAISO optimization model. The model will assign a LMP to the node in both the day-ahead and real time market as it balances the system using the least cost. The LMP is comprised of three components: the marginal cost of energy, congestion and losses. The LMP is used to financially settle transactions in the CAISO.

Load - An end use device or customer that receives power from an energy delivery system. Load should not be confused with Demand, which is the measure of power that a load receives or requires. See Demand.

LSE – Load-serving Entity – Entities that have been granted authority by state, local law or regulation to serve their own load directly through wholesale energy purchases and have chosen to exercise that authority.

NEM – Net Energy Metering – A program in which solar customers receive credit for excess electricity generated by solar panels.

NRDC – Natural Resources Defense Council

OIR – Order Instituting Rulemaking - A procedural document that is issued by the CPUC to start a formal proceeding. A draft OIR is issued for comment by interested parties and made final by vote of the five Commissioners of the CPUC.

MW – Megawatt – measure of power. A megawatt equals 1,000 kilowatts or 1 million watts.

MWH – Megawatt-hour – measure of energy

NP-15 – North Path 15 – NP-15 is a CAISO pricing zone usually used to approximate wholesale electricity prices in northern California in PG&E’s service territory.

PCC1 – RPS Portfolio Content Category 1 – Bundled renewables where the energy and REC are dynamically scheduled into a California Balancing Authority (CBA) such as the CAISO. Also known as “in-state” renewables

PCC2 – RPS Portfolio Content Category 2 – Bundled renewables where the energy and REC are from out-of-state and not dynamically scheduled to a CBA.

PCC3 – RPS Portfolio Content Category 3 – Unbundled REC

PCIA or “exit fee” - Power Charge Indifference Adjustment (PCIA) is an “exit fee” based on stranded costs of utility generation set by the California Public Utilities Commission. It is calculated annually and assessed to customers of CCAs and paid to the IOU that lost those customers as a result of the formation of a CCA.

PCL – Power Content Label – A user-friendly way of displaying information to California consumers about the energy resources used to generate the electricity they sell, as required by AB 162 (Statute of 2009) and Senate Bill 1305 (Statutes of 1997).

PD – Proposed Decision – A procedural document in a CPUC Rulemaking process that is formally commented on by Parties to the proceeding. A PD is a precursor to a final Decision voted on by the five Commissioners of the CPUC.

Pnode – Pricing Node – In the CAISO optimization model, it is a point where a physical injection or withdrawal of energy is modeled and for which a LMP is calculated.

PPA – Power Purchase Agreement – A contract used to purchase the energy, capacity and attributes from a renewable resource project.

RA – Resource Adequacy - Under its Resource Adequacy (RA) program, the California Public Utilities Commission (CPUC) requires load-serving entities—both independently owned utilities and electric service providers—to demonstrate in both monthly and annual filings that they have purchased capacity commitments of no less than 115% of their peak loads.

RE – Renewable Energy - Energy from a source that is not depleted when used, such as wind or solar power.

REC - Renewable Energy Certificate - A REC is the property right to the environmental benefits associated with generating renewable electricity. For instance, homeowners who generate solar electricity are credited with 1 solar REC for every MWh of electricity they produce. Utilities obligated to fulfill an RPS requirement can purchase these RECs on the open market.

RPS - Renewable Portfolio Standard - Law that requires CA utilities and other load serving entities (including CCAs) to provide an escalating percentage of CA qualified renewable power (culminating at 33% by 2020) in their annual energy portfolio.

SCE – Southern California Edison

SDG&E – San Diego Gas & Electric

SGIP – Self-Generation Incentive Program – A program which provides incentives to support existing, new, and emerging distributed energy resources (storage, wind turbines, waste heat to power technologies, etc.)

TCR EPS Protocol – The Climate Registry Electric Power Sector Protocol – Online tools and resources provided by The Climate Registry to assist organizations to measure, report, and reduce carbon emissions.

Time-of-Use (TOU) Rates – The pricing of delivered electricity based on the estimated cost of electricity during a particular time-block. Time-of-use rates are usually divided into three or four time-blocks per 24 hour period (on-peak, midpeak, off-peak and sometimes super off-peak) and by seasons of the year (summer and winter). Real time pricing differs from TOU rates in that it is based on actual (as opposed to forecasted) prices that may fluctuate many times a day and are weather sensitive, rather than varying with a fixed schedule.

TURN – The Utility Reform Network - A ratepayer advocacy group charged with ensuring that California IOUs implement just and reasonable rates.

Unbundled RECs - Renewable energy certificates that verify a purchase of a MWh unit of renewable power where the actual power and the certificate are “unbundled” and sold to different buyers.

VPP – Virtual Power Plant – A cloud-based network that leverages an aggregation of distributed energy resources (DERs) to shift energy demand or provide services to the grid. For example, thousands of EV chargers could charge at a slower speed and hundreds of home batteries could discharge to the grid during a demand peak to significantly reduce the procurement of traditional supply resources.

Staff Report – Item 1c

Item 1c: Adopt the FY22 Strategic Focus Areas and Work Plan

From: Girish Balachandran, CEO

Prepared by: Sanjay Natu, Internal Operations Program Manager

Date: 10/13/2021

RECOMMENDATION

Staff recommends the adoption of SVCE’s detailed Strategic Work Plan. This Strategic Work Plan will guide SVCE toward its mission of reducing dependence on fossil fuels by providing carbon free, affordable, and reliable electricity and innovative programs for the SVCE community.

BACKGROUND

On September 8, 2021, the SVCE Board approved six Strategic Focus Areas to guide the agency through the next fiscal year. These focus areas are also mirrored in the CEO’s annual goals. As part of the multiple discussions with the Board and committees from May through September, it was decided that the Mission and Measure of meeting the mission would not change. The CEO also reported that the detailed work plan would be updated and presented to the Board at the October meeting.

The accompanying document details the goals and measures that comprise the detailed SVCE Strategic Work Plan. **The workplan is a living document, managed in monthly meetings and priorities/changes will be discussed quarterly. We anticipate changes to the workplan in the following emerging areas:**

- Business process optimization next steps
- Interdepartmental workflows, process integration, roles and responsibilities
- “Double down” on decarbonization efforts
- New hires integration and competency into the new “hybrid by design” environment

The attached SVCE Strategic Work Plan for 2021-22 outlines 21 goals and 75 measures.

The Mission did not change

SVCE goals did not change except for minor re-arrangements:

- One new goal added in Finance: G14: Avoid failures in management of market risk, credit risk, liquidity risk, operational risks, and enterprise risks
- L&R goals were reorganized for clarity and by focus areas

All the measures were reviewed by staff in context of discussions and direction from the Board related to the Strategic Focus Areas and existing priorities. These were updated to reflect current conditions. Internal documents with more detail to guide each departments work have been developed and these will be updated as needed in monthly and quarterly meetings with staff.

SVCE 2021 – 2022 Workplan Goals Measures Portrait

SVCE Mission

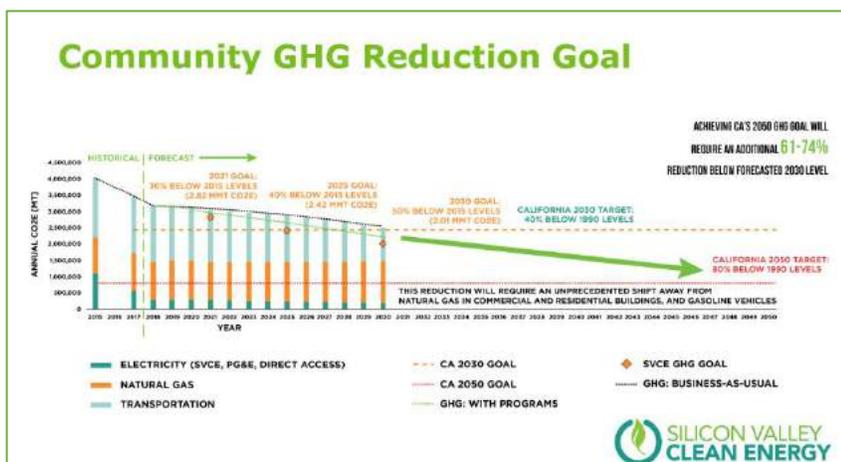

Reduce dependence on fossil fuels by providing carbon free, affordable, and reliable electricity and innovative programs for the SVCE community

Measure of Meeting the Mission

SVCE, working with SVCE member agencies, aspires to achieve energy and transportation GHG reductions of 30% from the 2015 baseline by 2021, 40% by 2025, and 50% by 2030

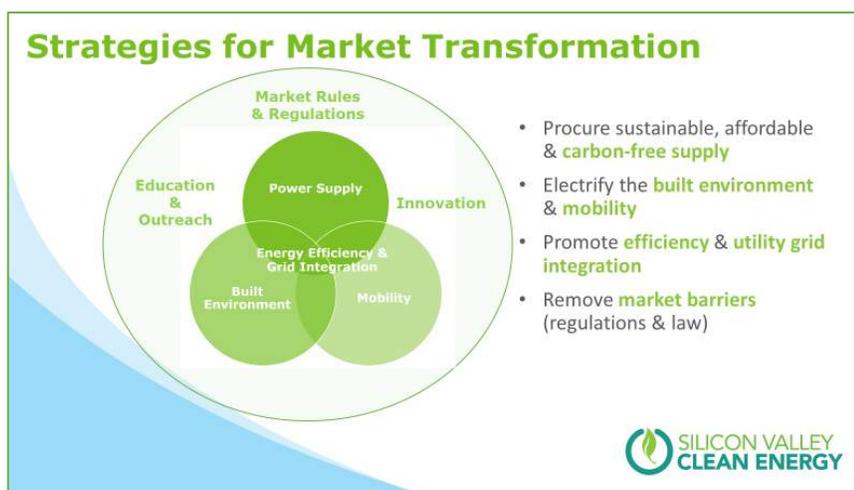

SUMMARY:

SVCE was founded to address climate change, the greatest existential threat of our time. We will play a vital role in this decades-long endeavor, with the ongoing support of our community and our Board. In addition to the most complex, expensive, and regulated sector of providing carbon-free electricity, we are reinvesting in our region and expanding our toolset for furthering emissions reductions by launching decarbonization and grid innovation programs. These programs represent the next stage in SVCE's maturity and are the mechanism by which SVCE will further engage our communities to achieve our mission.

We embody the entrepreneurial and innovative spirit of the community in which we live and work, the spirit of Silicon Valley, to bend the carbon curve downwards and improve the lives of our community members. This means taking calculated risks and demonstrating novel approaches that have the potential to make big impacts – our results serve to inform, inspire, and influence the rest of the market to achieve outsized results.

We prioritize collaborating with our peers and stakeholders to broaden our impact, for instance by forming regional efforts; widely disseminating results (including unanticipated ones) so that others can learn from our experience; and build on the promising approaches pioneered by others.

D. ACCOUNT SERVICES, CUSTOMER & COMMUNITY, PROGRAM DEPLOYMENT

Core to SVCE’s mission is delivery of high-value clean energy services and programs for our customers, who range from individual residents and small businesses to some of the world’s largest and most innovative tech companies. By providing reliable and responsive carbon-free electricity service at competitive rates, SVCE maintains a high customer participation rate and a strong financial foundation. Access to carbon-free electricity has helped our communities take a major step in fighting climate change, reducing local emissions by more than 20%. Yet supplying clean electricity is just the start.

To be the ‘provider of choice’ and meet longer-term community decarbonization goals, SVCE must continue to provide competitive energy services, and innovative programs for electrification at scale in transportation and the built environment. These must be well-tailored to the needs of our customers, including those traditionally underserved or difficult to reach, and large commercial customers with access to many other providers.

It is essential that SVCE engage our 270,000+ residential and commercial electricity customers in the electrification journey and take the necessary next steps. To do so, SVCE must continue to inspire and educate customers, and enable relevant action. This means expanding awareness and becoming a trusted advisor for electrification and leveraging direct digital engagement with customers via the web, email, and hosted online services. Supporting information and tools must be engaging, factual and easy to understand and useful to a full range of SVCE stakeholders, including community leaders, local elected officials, labor, and private sector partners.

Given the scale of the challenge, effective public communication will be critical. This includes regular communications to key stakeholder groups, and more broadly, telling the essential ‘stories’ behind electrification and decarbonization. To win hearts and minds, SVCE must work to illustrate the full range of social, environmental, and economic benefits and consequences at stake. In addition, SVCE must cultivate customer and stakeholder relationships in a leveraged way - using an array of channels that bring value to all segments of the communities we serve. These channels include our member agencies, and regular SVCE community stakeholder forums for transportation and building electrification.

I. Committee Operations

Formation

Formation of the Ad Hoc Committee of the Board to Address Legislative and Regulatory Responses to Industry Transition (“Ad Hoc Committee”) was authorized by the SVCE Board of Directors at its December 2020 meeting with the following six areas in scope:

- Expansion of Direct Access
- Reliability Planning and Procurement
- Transparency and Accountability in Ratemaking
- Public Safety Power Shutoffs and Wildfire Prevention and Cost Recovery
- Affordability and Equity
- Fuel Switching and Electrification

Members of the Ad Hoc Committee were selected at the March 2021 Board of Directors Meeting. Membership consisted of: Ad Hoc Committee Chair Rob Rennie; Chair of the Board Margaret Abe-Koga; Director Javed Ellahie; Director Yvonne Martínez Beltrán; Director Gustav Larsson and Director Zach Hilton.

Committee Activities

The Ad Hoc Committee held its inaugural meeting on April 1, 2021. The agenda for the meeting consisted of a review of the Ad Hoc Committee scoping areas, an overview of the 2021 legislative process from SVCE’s lobbying team in Sacramento, and discussion of the following bills: SB 67 and 68 (Becker); SB 612 (Portantino); SB 30, 31 and 32 (Cortese); as well as other priority bills. Director Rennie was elected as Chair for the Ad Hoc Committee.

On June 3, 2021, the Ad Hoc Committee held its second meeting. The agenda for the meeting included a discussion the Beyond Gasoline Initiative. The Beyond Gasoline Initiative, a collaboration between Joint Venture Silicon Valley and Coltura, sets a target to reduce gasoline consumption by 50 percent by 2030 in Santa Clara County. The Ad Hoc Committee unanimously voted in favor to recommend to the SVCE Board that it adopt a resolution endorsing the Beyond Gasoline Initiative. SVCE staff provided updates on the following: SB 612; Governor Newsom’s proposed budgets for clean energy and utility debt; proposed clean energy investments in President Biden’s American Rescue Plan; the status of the “Brown Act” bills, AB 339 (Lee) and AB 361 (Rivas), which provide direction on remote meetings due to the ongoing pandemic. The Ad Hoc Committee also voted in favor of supporting two bills by Senator Becker related to distributed energy resources and clean cars (SB 345 and SB 771).

The Ad Hoc Committee held its third and final meeting on August 16, 2021. Staff provided an update on the upcoming “Reach Codes 2.0” effort and solicited feedback from Ad Hoc Committee members on lessons learned from the first Reach Codes effort. Staff also provided updates on the status of SB 612, the state budget clean energy investments and COVID utility support, the federal infrastructure package, as well as updates on key bills of interest. Finally, staff solicited feedback from the Ad Hoc Committee on priorities to be included in SVCE’s 2022 Policy Platform.

RECOMMENDATION

Staff recommends the Board accept the Q3 2021 Update of the Decarbonization Strategy & Programs Roadmap.

BACKGROUND

To achieve its mission to reduce dependence on fossil fuels by providing carbon-free, affordable and reliable electricity and innovative programs for the community, SVCE established a decarbonization strategy and programs roadmap (abbrev. "Roadmap"). In December 2018, the Board approved the Roadmap, and since that time, staff have been working on implementation.

ANALYSIS & DISCUSSION

Attachment 1 is the most recent quarterly update, covering July through September of 2021. The quarterly update includes bulleted highlights and a table with a summary of updates and next steps for each initiative.

STRATEGIC PLAN

This item supports SVCE's 2020-2021 Strategic Plan Goal 9 to "coordinate development of decarbonization strategy, lead design of local policy and programs, and support program deployment," and supports achieving energy and transportation GHG reductions of 30% from the 2015 baseline by 2021, 40% by 2025, and 50% by 2030.

FISCAL IMPACT

Accepting the Q3 2021 Update of the Decarbonization Strategy & Programs Roadmap has no fiscal impact.

Decarbonization Strategy & Programs Roadmap

Q3 2021 Update

October 13, 2021 BOD Meeting

Highlights:

- **200 Heat Pump Water Heaters Installed with Rebate Program:** On average half of a home's fossil fuel emissions come from natural gas-powered water heaters. Switching to an all-electric heat pump water heater (HPWH) is an impactful action that residents can take to help fight climate change. With the FutureFit HPWH rebate program, SVCE has partially funded the installation of more than 200 HPWHs. Phase 1 of the program offered \$3,500 for switching from a gas to electric water heater and Phase 2 offers a \$2,000 rebate. Both phases include additional rebates for income-qualified customers and customers who need a panel upgrade. In addition, the program engaged with over 60 local contractors.
- **Outthink Innovation Pilot Concluded:** SVCE has concluded the City Chrysalis pilot that was conducted in the City of Gilroy. The program partner, Outthink, provided electric bikes to four income-qualified residents, and outfitted each participant with a Fitbit. The project focused on reducing local emissions from vehicles by increasing use and accessibility to safe alternative transportation, monitor usage and health impacts, improve bike usability and safety for participants and the community, and partner with a member agency. With Outthink's preliminary assessment, participants collectively biked over 3,700 miles and showed positive health metric improvements. The community also gained bike racks at a local grocery store and new bike line on a popular street. A third-party analysis will be conducted to assess the outcomes of the pilot.
- **2021 Innovation Impact Report Features \$1.1 Million in Cleantech Pilots:** In August, SVCE published the [Innovation Impact Report](#) which highlights key achievements of the 13 Innovation Onramp pilots SVCE funded in the past three years. Pilot projects range from increasing renter access to EV charging stations to streamlining clean energy projects by allowing customers to provide authorized access to their standardized energy data to third-party installers. Through the Innovation onramp program SVCE has received over 100 applications and worked with 13 innovation partners. To date, 2,400 SVCE customers have benefitted from the technologies that have been deployed through these innovation projects. The report features information on the successes and lessons learned throughout the pilot programs.
- **FutureFit Fundamentals Training Enrollment Open for Local Contractors:** FutureFit Fundamentals, the online course providing a robust update of current all-electric building practices, is now open for qualified contractors, apprentices, and journeymen to enroll. Participants will learn about all-electric HVAC, heat pump water heating, all-electric home appliances and home solar+battery storage within the course and will receive a \$500 stipend upon course completion.

California Community Power

TO: CC Power Board of Directors

DATE: 9/15/21

FROM: Tim Haines – Interim General Manager

SUBJECT: Report on CC Power Board of Directors Meeting – 9/15/21

The CC Power Board of Directors held its normally scheduled meeting on Wednesday, 9/15/21, via Zoom. Details on the Board packet, presentation materials, and public comment letters can be found under the Meetings tab at the CC Power website:

<https://cacommunitypower.org>

Highlights of the meeting included the following:

- **Matters subsequent to posting the Agenda.** Chair Balachandran announced that subsequent to the posting of the Board package, CC Power had received a letter seeking a delay in consideration of power procurement policy that was Item 6B on the agenda. Without agreement on the item, the Chair sought a motion to remove the item from the agenda. The Board voted to remove the agenda item and asked the Board policy ad hoc committee to take the matter up. Board Member Hale asked that the item be heard no later than the October 20 Board meeting for CPSF to maintain support for the Long Duration Storage project.
- **Public Comment.** Ten members of the public spoke during the comment period. Alex Landsberg, Research and Advocacy Director for San Francisco Construction Industry stated that his association will support the Long Duration Storage project without the need of CC Power adopting a broader policy. The other members of the public supported the delay of the policy vote. Reasons given included transparency, equity, public involvement, inclusion Unbundled Renewable Energy Credits, support of labor, and general support of the public comment letter submitted on behalf of IBEW Locals 6, 413, 595 and 617. The Chairman thanked the public for their comments.
- **Consent Calendar** - The Board unanimously approved the following items:
 - Minutes of the 8/18/18/21 Regular Board Meeting
- **Board Chair's and General Manager's Report.** *Report and Information Update on LDS Project Approval Process* – Board Chair Balachandran informed the Board that CC Power is developing material and a process to facilitate the review and approval process CC Power Board and Project Participating Board. LDS ad hoc committee members Lori Mitchell and Mitch Sears had met with the Chair, GM and GC and provided input to the presentation material. The Chair further informed the Board that two projects are entering the final phase on contracting. The two projects are located in California and require project labor agreements. The review and approval

A Joint Powers Agency whose members are:

Central Coast Community Energy | CleanPowerSF | East Bay Community Energy | MCE | Peninsula Clean Energy | Redwood Coast Energy Authority | San José Clean Energy | Silicon Valley Clean Energy | Sonoma Clean Power | Valley Clean Energy

process will commence in early October. The Chair invited General Counsel Braun to speak.

Mr. Braun presented the “Outline of Notice and Approval Process CC Power LDS Project” slides. He described the process to be a living document that will evolve. It will incorporate Board feedback as well as that of the LDS project oversight committee and member agency general counsel. The review and approval process will be conducted in compliance with the CC Power Joint Powers Agreement which requires a 60-day review and approval process. The General Counsel explained the package of contracts is between CC Power and Sellers, guarantees between participating members and sellers, and agreements between CC Power and participating members. The presentation material also describes the process utilized for the RFO solicitation, evaluation and negotiations; the information that will be provided to the CC Power and Participating Member Boards; and the projected schedule. Mr. Braun estimates that the process will begin at the October 5, 2021 special Board meeting. There is likely no Board action at the meeting as this will initiate the 60-day review and approval process. Mr. Braun confirmed that the contracts are expected to be final in early October.

In response to Board Member Syphers’ question, the General Counsel stated that the current expectation is all Board members will be given the right to vote on approving the contracts. However, the CC Power contract with the Seller will not be effective until each participating member executes their contracts with CC Power. Mr. Braun also explained this process contemplates the contracts going forward even if a member elects to not participate.

In response to Board Member Pepper, Mr. Braun explained that it is expected that individual Participating Member approval processes will differ and that is important to continue engagement with the POC and Member general counsel early.

Board member Hale pointed out that the process differences may also include information that is made public. Mr. Braun confirmed it is the intend to withhold information that is ‘commercially sensitive,’ but we also need to understand what that means for all Members.

- **Consider and Possibly Approve resolution 21-09-09 Approval of Competitive Rates, Labor, Environmental and Environmental Justice Policy** – Pulled from Agenda.
- **Consider and Possibly Approve Resolution 21-09-10: Approval of California Community Power 2021 Request for Offers for Firm Clean Energy Resources** – Jeanne Sole, Deputy Director of Power Resources, San Jose Clean Energy, presented the Member staff recommendation that the Board delegate authority to the General Manager to issue a CC Power 2021 Request for Offers for Firm Clean Energy Resources. The request further delegates authority to short-list respondents and the creation of a Project Oversight Committee consistent with CC Power’s project approval process.

Ms. Sole explained that the CPUC mandates that all CC Power members acquire about 200 MW of firm clean resources. Member staff has requested that CC Power issue the RFO to procure this resource. Pursuant to the Project Development Process, Member staff have developed the RFO and are prepared to issue, evaluate responses, and short-list respondents relying on 'sweat equity' and contributing consulting time and expertise.

Ms. Sole provided the timeline which projects the RFO will be issued in Mid-October and contracts entered in July. The presentations described the 'lessons learned' from the LDS contracting effort. This is expected to save time and money.

Board Member Pepper confirmed with General Counsel and General Manager that the LDS Enhanced Conditions policy will apply to this RFP. The General Manager stated that the Board will be asked to approve the budget for the project as part of the 2022 CC Power budget process which will begin in October.

- **Discussion of Any Individual Member Items** – not recorded in these notes.

Staff Report – Item 1j

Item 1j: Adopt Resolution Authorizing Public Meetings to Continue to Be Held Via Teleconferencing Pursuant to Government Code Section 54953(e) and Making Findings

From: Greg Stepanicich, General Counsel

Prepared by: Greg Stepanicich, General Counsel

Date: 10/13/2021

RECOMMENDATION

General Counsel recommends that the Board adopt the attached Resolution 2021-23 authorizing public meetings to continue to be held via teleconferencing pursuant to Government Code Section 54953(e) and making findings

COMMITTEE RECOMMENDATION

There is no Committee recommendation.

BACKGROUND

Pursuant to Government Code Section 54953(b)(3) legislative bodies may meet by “teleconference” only if the agenda lists each location a member remotely accesses a meeting from, the agenda is posted at all remote locations, and the public may access any of the remote locations. Additionally, a quorum of the legislative body must be within the legislative body’s jurisdiction.

Due to the COVID-19 pandemic, the Governor issued Executive Order N-29-20, suspending certain sections of the Brown Act. Pursuant to the Executive Order, legislative bodies no longer needed to list the location of each remote attendee, post agendas at each remote location, or allow the public to access each location. Further, a quorum of the legislative body does not need to be within the legislative body’s jurisdiction. After several extensions, Executive Order N-29-20 expired on September 30, 2021.

On September 16, 2021 Governor Newsom signed [AB 361](#), new legislation that amends the Brown Act to allow local agencies to meet remotely during Governor declared emergencies under certain conditions. AB 361 took effect immediately as an urgency measure, but the Governor subsequently suspended application of the legislation – with limited exceptions – until October 1, 2021. The provisions of AB 361 relevant to local agencies are codified at Government Code Section 54953(e).

AB 361 authorizes local agencies to continue meeting remotely without following the Brown Act’s standard teleconferencing provisions if the meeting is held during a state of emergency proclaimed by the Governor and either of the following applies: (1) state or local officials have imposed or recommended measures to promote social distancing; or (2) the agency has already determined or is determining whether, as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees.

Additionally, within thirty days after the first teleconferenced meeting held under AB 361, in order to continue meeting by teleconference, the local agency’s legislative body must find that it has reconsidered the circumstances of the state of emergency and that either: (1) The state of emergency continues to directly impact

Agenda Item: 1j**Agenda Date: 10/13/2021**

the ability of the members to meet safely in person; or (2) State or local officials continue to impose or recommend measures to promote social distancing.

The legislative body must make the required findings every 30 days, until the end of the state of emergency or recommended or required social distancing.

AB 361 also requires legislative bodies to make remote public meetings accessible telephonically or otherwise electronically to all members of the public seeking to observe and to address the local legislative body, and to make reasonable efforts to adhere as closely as reasonably possible to the provisions of the Brown Act. AB 361 adds new procedures and clarifies the requirements for conducting remote meetings. A legislative body that meets remotely must allow members of the public to access the meeting via a call-in option or an internet-based service option, and the agenda for the remote meeting must provide an opportunity for members of the public to directly address the body in real time. SVCE has followed these requirements since it first began remote meetings at the beginning of the pandemic.

Due to the rise in COVID-19 cases caused by the Delta Variant, on September 21, 2021, the Santa Clara County Health Officer issued a [recommendation](#) that public bodies meet remotely due to the increased protection provided by social distancing. The Health Officer cited "unique characteristics" of government meetings that lead to increased risk of transmission, including the gathering of people from across communities, the need for everybody to participate (including those who are immunocompromised or unvaccinated), and difficulty ensuring compliance with vaccination and safety recommendations.

STRATEGIC PLAN

SVCE's Board-adopted Strategic Plan identifies engaging the public as a goal of SVCE and remote meetings will better engage the public as long as COVID-19 is a threat to public health.

FISCAL IMPACT

Continuing to conduct remote public Board of Directors and Standing Committee meetings will not increase the cost of meetings.

ANALYSIS & DISCUSSION

Pursuant to AB 361, remote meetings can continue provide consistent with the requirements of the new statute provided that either: (1) state or local officials have imposed or recommended measures to promote social distancing; or (2) the agency has already determined or is determining whether, as a result of the emergency, meeting in person would present imminent risks to the health or safety of attendees.

The attached Resolution includes findings based on the County Health Officer's September 21, 2021 recommendation of measures to promote social distancing. The resolution applies to both the Board of Directors and its Committees.

Further, within 30 days after its first teleconferenced meeting under AB 361, the Board must make additional findings to continue meeting via teleconferencing. The Board must find that it has reconsidered the circumstances of the state of emergency and that either: (1) The state of emergency continues to directly impact the ability of the members to meet safely in person; or (2) State or local officials continue to impose or recommend measures to promote social distancing.

Therefore, the attached Resolution includes findings that the Board has reconsidered the circumstances of the state of emergency caused by COVID-19 and that the County Health Officer continues to recommend measures to promote social distancing.

Staff will continue to monitor the situation and will return to the Board every 30 days or as needed with additional recommendations related to the conduct of public meetings.

SVCE Staff Update

September has been a busy month for personnel, with 4 new staff starting with SVCE and 2 positions open for recruitment. Three new staff were added to the Power Resources team, including Maren Wenzel - Power Resources Planner, Zakary Liske - Power Contracts & Settlements Manager, and Charles Grinstead - Power Resources Manager. On the ASCR team, Hannah Gustafson started as a Senior Energy Services Specialist. SVCE continues to look for new staff for three open positions, including a Senior Financial Analyst on the Finance / Admin team and an Energy Services Lead focusing on building decarbonization for the ASCR team. Staff will be opening additional positions for recruitment in early October.

Hannah Gustafson joined SVCE September 20, 2021, as Senior Energy Services Specialist. Most recently, Hannah served as a senior researcher at the California Center for Sustainable Communities in the Institute of the Environment and Sustainability at UCLA, where she developed data-driven tools for energy and climate planning. In collaboration with BayREN, Hannah led the expansion of the Bay Area Energy Atlas. Hannah holds both an MA in Urban and Regional Planning and a BA in Geography/Environmental Studies from the University of California, Los Angeles.

Maren Wenzel joined SVCE on September 20, 2021, as our new Power Resources Planner. For the past five years she has supported decarbonization and resource planning efforts for utilities across the US. Immediately prior to SVCE, Maren worked for PG&E where she focused on CAISO system forecasting, including for the Integrated Resource Plan and SB100 Joint Agency efforts. She holds an M.A in International Affairs and International Economics, with a focus on Energy, Resources, and the Environment, from the Johns Hopkins School of Advanced International Studies.

Zak Liske joined SVCE September 27, 2021, as the Contracts and Settlements Manager as part of the Power Resources team. Matt Lundy joined SVCE September 1, 2021, as a Community Outreach Fellow through the Climate Corps. Matt brings experience in community climate advocacy and science communication to his role at SVCE. He is a member of the Climate Action Plan Working Group for Morgan Hill and occasionally freelances as a science writer covering physics, space, and climate change. Matt holds a BA in Astrophysics and Philosophy from UC Berkeley, and a MSc in Science Communication from Dublin City University.

Naomi Moraes joined SVCE September 7, 2021, as a Funding and Finance Fellow through the Climate Corps. Prior to working at SVCE, Naomi has most recently interned with the San Francisco Department of Public Works as a Student Design Trainee with the Site Assessment and Remediation accounting team. Naomi is a recent graduate of the University of Michigan, where she holds a B.A. in Economics and Environment.

Vaccination Report

Together with SVCEs General Counsel, staff has developed a vaccination policy aimed at controlling the spread of COVID-19 and reducing the risk to employees and the public. The policy requires SVCE personnel, including fellows, interns, and contractors regularly working on site, to provide proof of their vaccination status or submit a request for exemption under limited conditions. Regardless of vaccination status, when working at the office or at in-person events within Santa Clara County, SVCE personnel will continue to adhere to all local health orders regarding face coverings, social distancing, and other requirements.

Error in the Power Content Label (Monica)

The SVCE board attested to the validity of the 2020 Power Content Label for the Green Start product offering. The staff report also included, for reference, Green Prime's 2020 Power Content which erroneously listed the renewable portfolio mix as 25% wind and 75% solar. The correct mix for Green Prime, as independently verified, is 75% wind and 25% solar. The erroneous Power Content Label was mailed to all customers. Staff plans to notify Green Prime customers consistent with the requirements of the California Energy Commission.

DECARBONIZATION & GRID INNOVATION PROGRAMS UPDATE

OCTOBER HIGHLIGHTS

200 Heat Pump Water Heaters Installed

With the FutureFit HPWH rebate program, SVCE has partially funded the installation of more than 200 HPWHs. Phase 1 of the program offered \$3,500 for switching from a gas to an electric water heater and Phase 2 offers a \$2,000 rebate. Both phases include additional rebates for income-qualified customers and customers who need a panel upgrade. In addition, the program engaged with over 60 local contractors.

Outthink Innovation Pilot

SVCE has concluded the City Chrysalis pilot that was conducted in the City of Gilroy. The program partner, Outthink, provided electric bikes to four income-qualified residents and outfitted each participant with a Fitbit. The project focused on reducing local emissions from vehicles by increasing use and accessibility to safe alternative transportation. A third-party analysis will be conducted to assess the outcomes of the pilot.

Innovation Impact Report

In August, SVCE published the Innovation Impact Report which highlights key achievements of the 13 Innovation Onramp pilots SVCE has funded. Pilot projects range from increasing renter access to EV charging stations to streamlining clean energy projects by allowing customers to provide authorized access to their standardized energy data to third-party installers. To date, 2,400 SVCE customers have benefitted from the technologies that have been deployed through these innovation projects.

SVCE Legislative and Regulatory Update

October 13, 2021

Policy Updates

Regulatory Update:

1. Power Charge Indifference Adjustment (PCIA)
2. Electricity Planning and Procurement
 1. Integrated Resource Planning (IRP)
 2. Resource Adequacy (RA)

Legislative Update:

1. 2021 Legislative Positions
2. State budget clean energy investments and COVID utility support

Regulatory Update

PCIA: SVCE appeals the PCIA Working Group 3 decision

The Power Charge Indifference Adjustment (PCIA) is the CPUC-authorized mechanism for PG&E to recover uneconomic or legacy procurement costs via a fee that is charged to CCA customers.

New rules for legacy energy resources

May 2021: CPUC adopted a decision addressing CCA access to legacy energy resources, which:

- Removes the “cap” and “trigger” mechanism which address the PCIA's uncollected balances and should help reduce volatility in PCIA rates.
- Authorizes RPS resource allocations beginning in 2023.
- Approves a process for increasing transparency of investor-owned utilities' RA resources.
- Does not allow for legacy resource allocations (GHG, RA), that help reduce the PCIA, beyond 2023.

September 2021: The utilities held a joint workshop to discuss how to apply RPS allocations with parties

Next Steps: Utilities will inform CCAs of RPS allocation shares in early 2022.

Electricity Planning and Procurement: New rules imposed and more changes expected

Procurement obligations continue to evolve throughout 2021 and 2022

Newsom's Emergency Proclamation

- Orders energy agencies to ensure energy supply meets demand in extreme events

New Procurement Mandates

- LSEs must procure 11,500 MW of new electricity by 2026
- SVCE responsible for 237 MW
- CPUC considering expediting up to 5,000 MW to meet reliability needs 2022 and 2023

New Reliability Rules in Development

- CPUC is restructuring its Resource Adequacy program

IRP: CPUC considering additional measures to enhance summer reliability during 2022-23

Integrate Resource Planning (IRP) is a two-year process to ensure that the electricity sector is on track to meet its portion of the State's GHG reduction and reliability goals.

Proposed Mandates for CCAs and other load serving entities

- August 2021: Energy Commission issued an analysis projecting up to 5,200 MW of additional procurement needed next summer.
- August 2021: The CPUC issued a Concept Paper proposing accelerating midterm procurement for next summer, as well as imposing additional penalties for load-serving entities who do not meet procurement targets.
- September 2021: SVCE filed briefs on the Concept Paper advocating for the IOUs to procure any accelerated procurement for 2022 and 2023 and recover costs from CCAs via the Cost Allocation Mechanism.

Next steps: A proposed decision on 2022-2023 summer reliability is expected later this year.

Resource Adequacy (RA) Program: RA Program reform is underway

RA is a program developed to ensure that there will be sufficient resources available to serve electric demand under most conditions.

New rules for Resource Adequacy

June 2021: CPUC adopts a second decision that will restructure the RA Program, which:

- Adopts a process and schedule for developing a final restructuring plan.
- Orders a series of workshop over the next six months that will inform the final restructuring plan.

September 2021: RA reform workshops began. SVCE is participating in the process via CalCCA.

Next steps: A final restructuring plan for the RA Program is expected in Q2 2022.

Legislative Update

2021 Legislative Positions

The 2021 Legislative session ended on September 9th and both remote meeting bills have been signed by the Governor.

Product if (i) Purchaser has elected to submit the Product from the Shown Unit in its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or (ii) Seller fails to submit the volume of Expected Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Seller will not have failed to deliver the Expected Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit(s) and the Product in its Resource Adequacy Plan with the CPUC or CAISO.

- (g) Hold-Back Capacity, if any, is deemed Contract Quantity delivered, unless utilized under Article Five as Substitute Capacity, then Contract Quantity is delivered according to the timeline requirements therein.
- (h) The Shown Unit(s) must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.¹

2.2 Reductions in Contract Quantity

- (a) If Seller is providing Contingent Firm RA Product, Seller's obligation to deliver the Contract Quantity for each Showing Month may be reduced at Seller's option by the amount of any Planned Outages which exist with respect to any portion of the Unit during the applicable Showing Month; provided, (i) Seller notifies Purchaser by the Notification Deadline applicable to that Showing Month of the amount of Product from the Unit that Purchaser may include in Purchaser's Compliance Showings applicable to that month as a result of such Planned Outage, and (ii) such reduction is able to be reflected on the Supply Plans in accordance with the Tariff.
- (b) In the event Seller is unable to provide the Contract Quantity for any portion of a Showing Month because of a Planned Outage of a Unit, Seller has the option, but not the obligation, to provide Product for such portions of such Showing Month from Replacement Units, provided Seller provides and identifies such Replacement Units in accordance with Section 2.3.
- (c) Seller's obligation to deliver the Contract Quantity for each day of each Showing Month may be reduced at Seller's option in the event Purchaser fails to deliver, for any reason, the contract quantity of product set forth in Appendix B of the Swap Confirmation (such option, the "Swap Reduction Option"); provided, however, that (i) Seller's obligation to deliver the Contract Quantity of Product may not be reduced by an amount greater than the contract quantity of product that Purchaser failed to deliver under the Swap Confirmation and (ii) that the Swap Reduction Option is subject to Seller providing written notice to Purchaser of such

2.3 Seller's Option To Provide Alternate Capacity

If Seller is unable to provide the full Contract Quantity for a Showing Month for any reason, including, without limitation, as provided in Section 2.2, or Seller desires to provide some or all of the Contract Quantity for any Showing Month from a different generating unit other than the Unit, then Seller may, at no cost to Purchaser, provide Purchaser with replacement Product from one or more replacement units having the same Capacity Attributes of the Unit(s) originally identified in Appendix B, including the same Resource Category and, if applicable, the Flexible Capacity Category (each such unit, a "Replacement Unit") in an amount such that the total amount of Product provided to Purchaser from the Unit and any Replacement Unit(s) for each Showing Month is not more than the Contract Quantity, provided that in each case:

- (a) Seller shall notify Purchaser in writing of its intent to provide Alternate Capacity and shall identify the proposed Replacement Units from which such Alternate Capacity shall be provided no later than the Notification Deadline for Purchaser's Compliance Showings related to such Showing Month;
- (b) The proposed Replacement Units must (i) be accepted by the CAISO, and (ii) otherwise satisfy the requirements of this Agreement;
- (c) Seller shall, or shall cause the SC to submit a Supply Plan for each Showing Month and, if applicable, annual filing, no later than the Notification Deadline for Purchaser's Compliance Showings;
- (d) If Seller does not comply with the requirements of Sections 2.3(a), (b) and (c) for the applicable Showing Month and, if applicable, annual filing, then any such Replacement Units shall not be deemed a Replacement Unit for purposes of this Confirmation for that Showing Month and Seller shall not receive payment for such Product; and
- (e) The designation of any Replacement Unit(s) by Seller shall be subject to Purchaser's prior written approval, which shall not be unreasonably withheld.

Once Seller has identified in writing any Replacement Units that meet the requirements of this Section 2.3 and Purchaser has approved such Replacement Units as consistent with this Confirmation, then any such Replacement Units shall be deemed a Unit for purposes of this Confirmation for that Showing Month. Purchaser's approval of a Replacement Unit as to a given Showing Month shall not be construed as approval of such Replacement Unit for any subsequent Showing Month.

2.4 Planned Outages

As of the Confirmation Effective Date, Seller and Purchaser have agreed to all Planned Outages as specified in Appendix D (“Planned Outage Schedule”) for all relevant Showing Months for the following calendar year, or until the end of the Delivery Period, whichever is shorter. Seller may provide Purchaser with proposed changes to the Planned Outage Schedule from time to time. Within ten (10) Business Days after Purchaser’s receipt of any Seller proposed changes, Purchaser shall notify Seller in writing of any reasonable requests for modifications to such Seller proposed changes, and Seller shall, to the extent consistent with Prudent Operating Practice, accommodate Purchaser’s requests regarding the timing of any Seller proposed changes to the Planned Outage Schedule.

2.5 Purchaser’s Remedies for Seller’s Failure to Deliver Expected Contract Quantity

- (d) If Seller fails to deliver any part of the Expected Contract Quantity as required herein for any Showing Month, Seller shall be liable for damages pursuant to Section 21.3 of the WSPP Agreement, without reference to the word “hourly” therein.
- (e) Seller shall indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, including Environmental Costs, assessed against Purchaser by the CPUC, CAISO or other Governmental Body resulting from Seller’s failure to deliver the Product or a Shown Unit’s SC’s failure to timely or accurately submit Supply Plans in accordance with the Tariff and this Confirmation. The Parties shall use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

2.6 Purchaser’s Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Product; provided that any such re-sale must not increase Seller’s obligations hereunder other than as set forth in this Section 2.6(a). For any such a resale, the Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller shall, or shall cause the Shown Unit’s SC, to follow Purchaser’s instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller’s obligations under this Confirmation. Seller shall, and shall cause the Shown Unit’s SC, to take all commercially reasonable actions and execute all documents or instruments reasonably necessary to allow such Subsequent Purchasers to use such resold Product in a manner consistent with Purchaser’s rights under this Confirmation. - (b) Purchaser shall notify Seller in writing of any resale of Product and the Subsequent Purchaser no later than two (2) Business Days before the Notification Deadline for each Showing Month for which Purchaser has resold the Product. Purchaser shall notify Seller of any subsequent changes or further resales no later than two (2) Business Days before the Notification Deadline for the Showing Month.
 - (c) If CAISO or CPUC develops a centralized capacity market, Purchaser will have exclusive rights to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity of Product for re-sale in such market, Seller and the Unit's SC shall comply with Purchaser's direction and Purchaser shall retain and receive all revenues from such re-sale.
 - (d) Purchaser shall have the exclusive right to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity into the CAISO Competitive Solicitation Process (CSP) for CPM Capacity. Seller and the Unit's SC shall comply with the Purchaser's direction and, to the extent that the CAISO designates the Expected Contract Quantity as CPM Capacity, Purchaser shall be entitled to retain and receive the CPM Capacity Payment. Unless otherwise instructed by Purchaser, (i) Seller shall not, and shall cause the Unit's SC to not, offer any portion of the Expected Contract Quantity to CAISO as CPM Capacity and (ii) if CAISO designates any portion of the Contract Capacity as CPM Capacity, then Seller shall, and shall cause the Unit's SC to, promptly (and in any event within one (1) Business Day of the time Seller receives notification from CAISO) notify Purchaser of such designation, and if CAISO makes such a designation, Seller shall not, and shall cause the Unit's SC to not, accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

The Monthly RA Capacity Payment shall equal the product of (a) the applicable Contract Price for that Showing Month, (b) the Expected Contract Quantity for the Showing Month and (c) 1,000, rounded to the nearest penny (i.e., two decimal places); provided, however, that the Monthly RA Capacity Payment shall be adjusted to reflect any portion of Expected Contract Quantity for the

Purchaser must promptly report receipt of any such revenues to Seller. Purchaser must pay to Seller any such amounts described in this Section 3.2(a) received by Purchaser or a Subsequent Purchaser. Without prejudice to its other rights and remedies, Seller may setoff and recoup any such amounts that are not paid to it pursuant to this Section 3.2(a) against any amounts owed to Purchaser under the WSPP Agreement.
- (b) Purchaser is to receive and retain all revenues associated with the Expected Contract Quantity of Product during the Delivery Period, including any capacity and availability revenues from the Capacity Procurement Mechanism, or its successor, RUC Availability Payments, or its successor, but excluding payments described in Section 3.2(a)(i)-(v) or 3.2(d). - (d) Any Availability Incentive Payments or Non-Availability Charges are for Seller to receive and pay.

ARTICLE 2
DELIVERY OBLIGATIONS AND ADJUSTMENTS

2.1 Sale and Delivery of Product

- (a) For each Showing Month of the Delivery Period, Seller shall sell and deliver to Purchaser, and Purchaser shall purchase and receive from Seller, the Expected Contract Quantity of the Product from the Shown Unit(s). Seller's obligation to deliver the Expected Contract Quantity of Product for the Delivery Period is firm and will not be excused for any reason.
- (b) Seller shall deliver the Expected Contract Quantity by submitting to CAISO in its Supply Plan the Shown Unit(s) and the characteristics of the Shown Unit(s) and Product for Purchaser, as further specified in Appendix B, all in compliance with this Confirmation.
- (c) Seller shall cause all Supply Plans to meet and be filed in conformance with the requirements of the CPUC and the Tariff. Seller shall submit, or cause the Shown Unit's SC to submit, on a timely basis with respect to each applicable Showing Month, Supply Plans in accordance with the Tariff and CPUC requirements to identify and confirm the Product delivered to Purchaser for each Showing Month of the Delivery Period. The total amount of Product identified and confirmed for such Showing Month shall equal the Expected Contract Quantity, including a request for Hold-Back Capacity pursuant to Article Five of this Confirmation.
- (d) Seller shall sell and deliver Product from a Shown Unit that meets the requirements set forth in Appendix B, including the Resource Category and, if applicable, the Flexible Capacity Category. In no event shall a Shown Unit utilize coal or coal materials as a source of fuel. A Shown Unit must be a specific resource that is connected directly to the CAISO controlled grid or be under the operational control of CAISO. A Shown Unit may not be an unspecified import. Seller shall identify the Shown Unit(s) and Expected Contract Quantity by providing Purchaser with the specific information contemplated in Appendix B no later than the Notification Deadline for the relevant Showing Month.
- (e) If CAISO rejects either the Supply Plan or the Resource Adequacy Plan with respect to any part of the Expected Contract Quantity for the Shown Unit(s) in any Showing Month, the Parties shall confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plan or Resource Adequacy Plan for validation before the applicable deadline for the Showing Month.
- (f) The Product is delivered and received when the CIRA Tool shows that the Supply Plan submitted in compliance with Purchaser's instructions, including Purchaser's instructions to withhold all or part of the Expected Contract Quantity from Seller's Supply Plan for any Showing Month during the Delivery Period, has been accepted for the Product from the Shown Unit(s) by CAISO. Seller has failed to deliver the

**Joint CCA WSPP Standard RA Confirmation

Product if (i) Purchaser has elected to submit the Product from the Shown Unit in its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or (ii) Seller fails to submit the volume of Expected Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Seller will not have failed to deliver the Expected Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit(s) and the Product in its Resource Adequacy Plan with the CPUC or CAISO.

- (g) Hold-Back Capacity, if any, is deemed Contract Quantity delivered, unless utilized under Article Five as Substitute Capacity, then Contract Quantity is delivered according to the timeline requirements therein.
- (h) The Shown Unit(s) must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.¹

2.2 Reductions in Contract Quantity

- (a) If Seller is providing Contingent Firm RA Product, Seller's obligation to deliver the Contract Quantity for each Showing Month may be reduced at Seller's option by the amount of any Planned Outages which exist with respect to any portion of the Unit during the applicable Showing Month; provided, (i) Seller notifies Purchaser by the Notification Deadline applicable to that Showing Month of the amount of Product from the Unit that Purchaser may include in Purchaser's Compliance Showings applicable to that month as a result of such Planned Outage, and (ii) such reduction is able to be reflected on the Supply Plans in accordance with the Tariff.
- (b) In the event Seller is unable to provide the Contract Quantity for any portion of a Showing Month because of a Planned Outage of a Unit, Seller has the option, but not the obligation, to provide Product for such portions of such Showing Month from Replacement Units, provided Seller provides and identifies such Replacement Units in accordance with Section 2.3.
- (c) Seller's obligation to deliver the Contract Quantity for each day of each Showing Month may be reduced at Seller's option in the event Purchaser fails to deliver, for any reason, the contract quantity of product set forth in Appendix B of the Swap Confirmation (such option, the "Swap Reduction Option"); provided, however, that (i) Seller's obligation to deliver the Contract Quantity of Product may not be reduced by an amount greater than the contract quantity of product that Purchaser failed to deliver under the Swap Confirmation and (ii) that the Swap Reduction Option is subject to Seller providing written notice to Purchaser of such

modification no later than two (2) Business Days before the initial Compliance Showing deadline for such Showing Month. Seller's rights under the Swap Reduction Option are cumulative and in addition to Seller's rights under the Swap Confirmation.

2.3 Seller's Option To Provide Alternate Capacity

If Seller is unable to provide the full Contract Quantity for a Showing Month for any reason, including, without limitation, as provided in Section 2.2, or Seller desires to provide some or all of the Contract Quantity for any Showing Month from a different generating unit other than the Unit, then Seller may, at no cost to Purchaser, provide Purchaser with replacement Product from one or more replacement units having the same Capacity Attributes of the Unit(s) originally identified in Appendix B, including the same Resource Category and, if applicable, the Flexible Capacity Category (each such unit, a "Replacement Unit") in an amount such that the total amount of Product provided to Purchaser from the Unit and any Replacement Unit(s) for each Showing Month is not more than the Contract Quantity, provided that in each case:

- (a) Seller shall notify Purchaser in writing of its intent to provide Alternate Capacity and shall identify the proposed Replacement Units from which such Alternate Capacity shall be provided no later than the Notification Deadline for Purchaser's Compliance Showings related to such Showing Month;
- (b) The proposed Replacement Units must (i) be accepted by the CAISO, and (ii) otherwise satisfy the requirements of this Agreement;
- (c) Seller shall, or shall cause the SC to submit a Supply Plan for each Showing Month and, if applicable, annual filing, no later than the Notification Deadline for Purchaser's Compliance Showings;
- (d) If Seller does not comply with the requirements of Sections 2.3(a), (b) and (c) for the applicable Showing Month and, if applicable, annual filing, then any such Replacement Units shall not be deemed a Replacement Unit for purposes of this Confirmation for that Showing Month and Seller shall not receive payment for such Product; and
- (e) The designation of any Replacement Unit(s) by Seller shall be subject to Purchaser's prior written approval, which shall not be unreasonably withheld.

Once Seller has identified in writing any Replacement Units that meet the requirements of this Section 2.3 and Purchaser has approved such Replacement Units as consistent with this Confirmation, then any such Replacement Units shall be deemed a Unit for purposes of this Confirmation for that Showing Month. Purchaser's approval of a Replacement Unit as to a given Showing Month shall not be construed as approval of such Replacement Unit for any subsequent Showing Month.

2.4 Planned Outages

Seller may provide Purchaser with proposed changes to the Planned Outage Schedule from time to time. Within ten (10) Business Days after Purchaser’s receipt of any Seller proposed changes, Purchaser shall notify Seller in writing of any reasonable requests for modifications to such Seller proposed changes, and Seller shall, to the extent consistent with Prudent Operating Practice, accommodate Purchaser’s requests regarding the timing of any Seller proposed changes to the Planned Outage Schedule.

2.5 Purchaser’s Remedies for Seller’s Failure to Deliver Expected Contract Quantity

- (d) If Seller fails to deliver any part of the Expected Contract Quantity as required herein for any Showing Month, Seller shall be liable for damages pursuant to Section 21.3 of the WSPP Agreement, without reference to the word “hourly” therein.
- (e) Seller shall indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, including Environmental Costs, assessed against Purchaser by the CPUC, CAISO or other Governmental Body resulting from Seller’s failure to deliver the Product or a Shown Unit’s SC’s failure to timely or accurately submit Supply Plans in accordance with the Tariff and this Confirmation. The Parties shall use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

2.6 Purchaser’s Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Product; provided that any such re-sale must not increase Seller’s obligations hereunder other than as set forth in this Section 2.6(a). For any such a resale, the Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller shall, or shall cause the Shown Unit’s SC, to follow Purchaser’s instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller’s obligations under this Confirmation.  - (d) Purchaser shall have the exclusive right to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity into the CAISO Competitive Solicitation Process (CSP) for CPM Capacity. Seller and the Unit's SC shall comply with the Purchaser's direction and, to the extent that the CAISO designates the Expected Contract Quantity as CPM Capacity, Purchaser shall be entitled to retain and receive the CPM Capacity Payment. Unless otherwise instructed by Purchaser, (i) Seller shall not, and shall cause the Unit's SC to not, offer any portion of the Expected Contract Quantity to CAISO as CPM Capacity and (ii) if CAISO designates any portion of the Contract Capacity as CPM Capacity, then Seller shall, and shall cause the Unit's SC to, promptly (and in any event within one (1) Business Day of the time Seller receives notification from CAISO) notify Purchaser of such designation, and if CAISO makes such a designation, Seller shall not, and shall cause the Unit's SC to not, accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

Seller shall indemnify, defend and hold Buyer harmless from and against all liabilities, damages, claims, losses, costs or expenses (including, without limitation, attorneys' fees) incurred by or brought against Buyer in connection with Environmental Costs.

- (b) In order to verify the accuracy of such revenues, Buyer has the right, at its sole expense and during normal working hours after reasonable prior notice, to hire an independent third party reasonably acceptable to Seller to audit any documents, records or data of Seller associated with the Contract Quantity and in accordance with Section 3.1 of this Confirmation and Article Six of the Master Agreement.

Each disclosing Party shall use reasonable efforts to limit, to the extent possible, the ability of any such applicable Governmental Body, CAISO, or Scheduling Coordinator to further disclose information disclosed pursuant to this Article. In addition, if Buyer resells all or any portion of the Contract Quantity for any day during the Delivery Period to another party, Buyer shall be permitted to disclose to the purchaser of the Resold Product all such information necessary to effect such resale transaction, other than the Contract Price.

For the purposes of calculating the Collateral Requirement pursuant to Section 8.2 of the Master Agreement, entitled "Party B Credit Protection", and all corresponding provisions to Section 8.2 of the Master Agreement, such Fixed Independent Amount for Party A shall be added to the Exposure Amount for Party B and subtracted from the Exposure Amount for Party A.

8.2 Party B Collateral Requirements

Section 8.1 of the Master Agreement, entitled "Party A Credit Protection", and all corresponding provisions to Section 8.1 of the Master Agreement do not apply to this Confirmation.

8.3 Current Mark-to-Market Value

For the purposes of calculating Exposure pursuant to the Collateral Annex, the Current Mark-to-Market Value for this Transaction is deemed to be zero. If at any time prior to the expiration of the Delivery Period, a liquid market for the Product develops wherein price quotes for such a product can be obtained, the Parties agree to amend the Confirmation to include a methodology for calculating the Current Mark-to-Market Value for this Transaction, consequently affecting each Party's Exposure.

The Parties shall determine the Settlement Amount for this Transaction in accordance with Section 5.2 of the Master Agreement using the defined terms contained in this Confirmation and with respect to this Transaction only, the following language is to be added at the end of Section 5.2 of the Master Agreement:

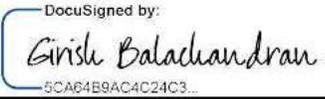

"If Buyer is the Non-Defaulting Party and Buyer reasonably expects to incur or be liable for any penalties, fines or costs from the CPUC, CAISO, or any Governmental Body having jurisdiction, because Buyer or a purchaser of Resold Product is not able to include the applicable Contract Quantity in any applicable Compliance Showing due to Seller's Event of Default, then Buyer may, in good faith, estimate the amount of those penalties, fines or costs and include this estimate in its determination of the Termination Payment, subject to accounting to Seller when those penalties, fines or costs are finally ascertained. If this accounting establishes that Buyer's estimate exceeds the actual amount of penalties, fines or costs, Buyer shall promptly remit to Seller the excess amount. The rights and obligations with respect to determining and paying any Termination Payment, and any dispute

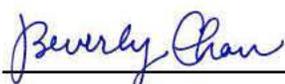

resolution provisions with respect thereto, survive the termination of this Transaction and continue until after those penalties, fines or costs are finally ascertained.”

This Confirmation confirms the transaction between City of San José, a California municipality (“Seller”) and Silicon Valley Clean Energy Authority, a California joint powers authority (“Purchaser”), and each individually a “Party” and together the “Parties”, dated as of September 13, 2021 (the “Effective Date”), by which Seller agrees to sell and deliver, and Purchaser agrees to purchase and receive, the Product (the “Transaction”). This Transaction is governed by the WSPP Agreement dated July 28, 2020 (the “WSPP Agreement”). The WSPP Agreement and this Confirmation, including any applicable appendices, exhibits or amendments thereto, shall be collectively referred to herein as the “Agreement” and will constitute a single agreement between the Parties with respect to the Transaction. Capitalized terms not otherwise defined in this Confirmation or the WSPP Agreement are defined in the Tariff.

ARTICLE 1 TRANSACTION TERMS

Product, Delivery Period, Contract Quantity, Contract Price and other specifics of the Product are in Appendix B. Appendices A, B, C, and D are incorporated into this Confirmation.

Firm RA Product:

Seller shall provide Purchaser with the Product from the Unit in the amount of the Contract Quantity. If the Unit is not available to provide the full amount of the Contract Quantity for any reason, then Seller shall have the option to supply Alternate Capacity pursuant to Section 2.3 to fulfill the remainder of the Contract Quantity during such period. If Seller fails to provide Purchaser with the Contract Quantity and has failed to supply Alternate Capacity to fulfill the remainder of the Contract Quantity during such period, then Seller shall be liable for damages and/or required to indemnify Purchaser for penalties or fines pursuant to the terms of Section 2.5.

Contingent Firm RA Product:

Seller shall provide Purchaser with Product from the Unit in the amount of the Contract Quantity. If the Unit is not available to provide the full amount of the Contract Quantity as a result of any reduction of the Contract Quantity of the Unit in accordance with Section 2.2, Seller shall have the option to notify Purchaser that either (a) Seller will not provide the portion of the Contract Quantity attributable to such reduction during the period of such non-availability; or (b) Seller will supply Alternate Capacity to fulfill the remainder of the Contract Quantity during such period pursuant to Section 2.3. If the Unit is not available to provide the full amount of the Contract Quantity as a result of any reason other than as provided in Section 2.2, then Seller shall have the option to supply Alternate Capacity pursuant to Section 2.3 to fulfill the remainder of the Contract Quantity during such period. If Seller fails to provide Purchaser with the Expected Contract Quantity from the Unit and has failed to supply Alternate Capacity to fulfill the remainder of the Expected Contract Quantity during such period, then Seller shall be liable for damages and/or required to indemnify Purchaser for penalties or fines pursuant to the terms of Section 2.5.

ARTICLE 2
DELIVERY OBLIGATIONS AND ADJUSTMENTS

2.1 Sale and Delivery of Product

- (a) For each Showing Month of the Delivery Period, Seller shall sell and deliver to Purchaser, and Purchaser shall purchase and receive from Seller, the Expected Contract Quantity of the Product from the Shown Unit(s). Seller's obligation to deliver the Expected Contract Quantity of Product for the Delivery Period is firm and will not be excused for any reason.
- (b) Seller shall deliver the Expected Contract Quantity by submitting to CAISO in its Supply Plan the Shown Unit(s) and the characteristics of the Shown Unit(s) and Product for Purchaser, as further specified in Appendix B, all in compliance with this Confirmation.
- (c) Seller shall cause all Supply Plans to meet and be filed in conformance with the requirements of the CPUC and the Tariff. Seller shall submit, or cause the Shown Unit's SC to submit, on a timely basis with respect to each applicable Showing Month, Supply Plans in accordance with the Tariff and CPUC requirements to identify and confirm the Product delivered to Purchaser for each Showing Month of the Delivery Period. The total amount of Product identified and confirmed for such Showing Month shall equal the Expected Contract Quantity.
- (d) Seller shall sell and deliver Product from a Shown Unit that meets the requirements set forth in Appendix B, including the Resource Category and, if applicable, the Flexible Capacity Category. In no event shall a Shown Unit utilize coal or coal materials as a source of fuel. A Shown Unit must be a specific resource that is connected directly to the CAISO controlled grid or be under the operational control of CAISO. A Shown Unit may not be an unspecified import. Seller shall identify the Shown Unit(s) and Expected Contract Quantity by providing Purchaser with the specific information contemplated in Appendix B no later than the Notification Deadline for the relevant Showing Month.
- (e) If CAISO rejects either the Supply Plan or the Resource Adequacy Plan with respect to any part of the Expected Contract Quantity for the Shown Unit(s) in any Showing Month, the Parties shall confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plan or Resource Adequacy Plan for validation before the applicable deadline for the Showing Month.
- (f) The Product is delivered and received when the CIRA Tool shows that the Supply Plan submitted in compliance with Purchaser's instructions, including Purchaser's instructions to withhold all or part of the Expected Contract Quantity from Seller's Supply Plan for any Showing Month during the Delivery Period, has been accepted for the Product from the Shown Unit(s) by CAISO. Seller has failed to deliver the Product if (i) Purchaser has elected to submit the Product from the Shown Unit in

SJCE ID 21-199-13

its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or (ii) Seller fails to submit the volume of Expected Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Seller will not have failed to deliver the Expected Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit(s) and the Product in its Resource Adequacy Plan with the CPUC or CAISO.

- (g) The Shown Unit(s) must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.

2.2 Reductions in Contract Quantity

- (a) If Seller is providing Contingent Firm RA Product, Seller's obligation to deliver the Contract Quantity for each Showing Month may be reduced at Seller's option by the amount of any Planned Outages which exist with respect to any portion of the Unit during the applicable Showing Month; provided, (i) Seller notifies Purchaser by the Notification Deadline applicable to that Showing Month of the amount of Product from the Unit that Purchaser may include in Purchaser's Compliance Showings applicable to that month as a result of such Planned Outage, and (ii) such reduction is able to be reflected on the Supply Plans in accordance with the Tariff.
- (b) In the event Seller is unable to provide the Contract Quantity for any portion of a Showing Month because of a Planned Outage of a Unit, Seller has the option, but not the obligation, to provide Product for such portions of such Showing Month from Replacement Units, provided Seller provides and identifies such Replacement Units in accordance with Section 2.3.

2.3 Seller's Option To Provide Alternate Capacity

If Seller is unable to provide the full Contract Quantity for a Showing Month for any reason, including, without limitation, as provided in Section 2.2, or Seller desires to provide some or all of the Contract Quantity for any Showing Month from a different generating unit other than the Unit, then Seller may, at no cost to Purchaser, provide Purchaser with replacement Product from one or more replacement units having the same Capacity Attributes of the Unit(s) originally identified in Appendix B, including the same Resource Category and, if applicable, the Flexible Capacity Category (each such unit, a "Replacement Unit") in an amount such that the total amount of Product provided to Purchaser from the Unit and any Replacement Unit(s) for each Showing Month is not more than the Contract Quantity, provided that in each case:

- (a) Seller shall notify Purchaser in writing of its intent to provide Alternate Capacity and shall identify the proposed Replacement Units from which such Alternate Capacity shall be provided no later than the Notification Deadline for Purchaser's

SJCE ID 21-199-13

Compliance Showings related to such Showing Month;

- (b) The proposed Replacement Units must (i) be accepted by the CAISO, and (ii) otherwise satisfy the requirements of this Agreement;
- (c) Seller shall, or shall cause the SC to submit a Supply Plan for each Showing Month and, if applicable, annual filing, no later than the Notification Deadline for Purchaser's Compliance Showings;
- (d) If Seller does not comply with the requirements of Sections 2.3(a), (b) and (c) for the applicable Showing Month and, if applicable, annual filing, then any such Replacement Units shall not be deemed a Replacement Unit for purposes of this Confirmation for that Showing Month and Seller shall not receive payment for such Product; and
- (e) The designation of any Replacement Unit(s) by Seller shall be subject to Purchaser's prior written approval, which shall not be unreasonably withheld.

Once Seller has identified in writing any Replacement Units that meet the requirements of this Section 2.3 and Purchaser has approved such Replacement Units as consistent with this Confirmation, then any such Replacement Units shall be deemed a Unit for purposes of this Confirmation for that Showing Month. Purchaser's approval of a Replacement Unit as to a given Showing Month shall not be construed as approval of such Replacement Unit for any subsequent Showing Month.

2.4 Planned Outages

As of the Confirmation Effective Date, Seller and Purchaser have agreed to all Planned Outages as specified in Appendix D ("Planned Outage Schedule") for all relevant Showing Months for the following calendar year, or until the end of the Delivery Period, whichever is shorter. Seller may provide Purchaser with proposed changes to the Planned Outage Schedule from time to time. Within ten (10) Business Days after Purchaser's receipt of any Seller proposed changes, Purchaser shall notify Seller in writing of any reasonable requests for modifications to such Seller proposed changes, and Seller shall, to the extent consistent with Prudent Operating Practice, accommodate Purchaser's requests regarding the timing of any Seller proposed changes to the Planned Outage Schedule.

2.5 Purchaser's Remedies for Seller's Failure to Deliver Expected Contract Quantity

- (a) If Seller fails to deliver any part of the Expected Contract Quantity as required herein for any Showing Month, Seller shall be liable for damages pursuant to Section 21.3 of the WSPP Agreement, without reference to the word "hourly" therein.
- (b) Seller shall indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, including Environmental Costs, assessed against Purchaser by the

CPUC, CAISO or other Governmental Body resulting from Seller's failure to deliver the Product or a Shown Unit's SC's failure to timely or accurately submit Supply Plans in accordance with the Tariff and this Confirmation. The Parties shall use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

2.6 Purchaser's Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Product; provided that any such re-sale must not increase Seller's obligations hereunder other than as set forth in this Section 2.6(a). For any such a resale, the Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller shall, or shall cause the Shown Unit's SC, to follow Purchaser's instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller's obligations under this Confirmation. Seller shall, and shall cause the Shown Unit's SC, to take all commercially reasonable actions and execute all documents or instruments reasonably necessary to allow such Subsequent Purchasers to use such resold Product in a manner consistent with Purchaser's rights under this Confirmation. If Purchaser incurs any liability to a Subsequent Purchaser due to the failure of Seller or the Shown Unit's SC to comply with this Confirmation, Seller will be liable to Purchaser for the amounts Seller would have owed Purchaser under this Confirmation if Purchaser had not resold the Product.
- (b) Purchaser shall notify Seller in writing of any resale of Product and the Subsequent Purchaser no later than two (2) Business Days before the Notification Deadline for each Showing Month for which Purchaser has resold the Product. Purchaser shall notify Seller of any subsequent changes or further resales no later than two (2) Business Days before the Notification Deadline for the Showing Month.
- (c) If CAISO or CPUC develops a centralized capacity market, Purchaser will have exclusive rights to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity of Product for re-sale in such market, Seller and the Unit's SC shall comply with Purchaser's direction and Purchaser shall retain and receive all revenues from such re-sale.
- (d) Purchaser shall have the exclusive right to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity into the CAISO Competitive Solicitation Process (CSP) for CPM Capacity. Seller and the Unit's SC shall comply with the Purchaser's direction and, to the extent that the CAISO

SJCE ID 21-199-13

designates the Expected Contract Quantity as CPM Capacity, Purchaser shall be entitled to retain and receive the CPM Capacity Payment. Unless otherwise instructed by Purchaser, (i) Seller shall not, and shall cause the Unit's SC to not, offer any portion of the Expected Contract Quantity to CAISO as CPM Capacity and (ii) if CAISO designates any portion of the Contract Capacity as CPM Capacity, then Seller shall, and shall cause the Unit's SC to, promptly (and in any event within one (1) Business Day of the time Seller receives notification from CAISO) notify Purchaser of such designation, and if CAISO makes such a designation, Seller shall not, and shall cause the Unit's SC to not, accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

ARTICLE 3 **PAYMENTS**

3.1 Payment

Purchaser shall make a monthly payment to Seller for each Unit by the later of (i) ten (10) Calendar Days after Purchaser's receipt of Seller's invoice (which may be given upon first day of the Showing Month) and (ii) the twentieth (20th) of the Showing Month, or if the twentieth (20th) is not a Business Day the next following Business Day ("Monthly RA Capacity Payment"). The Monthly RA Capacity Payment shall equal the product of (a) the applicable Contract Price for that Showing Month, (b) the Expected Contract Quantity for the Showing Month and (c) 1,000, rounded to the nearest penny (i.e., two decimal places); provided, however, that the Monthly RA Capacity Payment shall be adjusted to reflect any portion of Expected Contract Quantity for the Showing Month that was not delivered in accordance with Section 2.1 for such Showing Month.

3.2 Allocation of Other Payments and Costs

- (a) Seller will receive any revenues from, and must pay all costs charged by, CAISO or any other third party with respect to the Shown Unit(s) for (i) start-up, shutdown, and minimum load costs, (ii) capacity for ancillary services, (iii) energy sales, (iv) flexible ramping product, or (v) black start or reactive power services. Purchaser must promptly report receipt of any such revenues to Seller. Purchaser must pay to Seller any such amounts described in this Section 3.2(a) received by Purchaser or a Subsequent Purchaser. Without prejudice to its other rights and remedies, Seller may setoff and recoup any such amounts that are not paid to it pursuant to this Section 3.2(a) against any amounts owed to Purchaser under the WSPP Agreement.
- (b) Purchaser is to receive and retain all revenues associated with the Expected Contract Quantity of Product during the Delivery Period, including any capacity and availability revenues from the Capacity Procurement Mechanism, or its successor, RUC Availability Payments, or its successor, but excluding payments described in Section 3.2(a)(i)-(v) or 3.2(d). Seller shall promptly report receipt of any such revenues to Purchaser. Seller shall pay to Purchaser within thirty (30) days of receipt any such amounts received by Seller, or a Shown Unit's SC, owner,

SJCE ID 21-199-13

or operator. Without prejudice to its other rights, Purchaser may set off and recoup any such amounts that are not paid to it against amounts owed to Seller under the WSPP Agreement.

- (c) If CAISO designates any part of the Contract Quantity as Capacity Procurement Mechanism Capacity, then Seller shall, or shall cause the Shown Unit's SC to, within one (1) Business Day of the time Seller receives notification from CAISO, notify Purchaser and not accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.
- (d) Any Availability Incentive Payments or Non-Availability Charges are for Seller to receive and pay.

ARTICLE 4

OTHER PURCHASER AND SELLER COVENANTS

4.1 CAISO Requirements

Seller shall schedule or cause the Shown Unit's SC to schedule or make available to CAISO the Expected Contract Quantity of the Product during the Delivery Period, in compliance with the Tariff, and perform all, or cause the Shown Unit's SC, owner, or operator to perform all, obligations under applicable law and the Tariff relating to the Product. Purchaser is not liable for, and Seller shall indemnify and hold Purchaser harmless from, the failure of Seller or the Shown Unit's SC, owner, or operator to comply with the Tariff, and for any penalties, fines or costs imposed on Seller or the Shown Unit's SC, owner, or operator for noncompliance.

4.2 Seller's and Purchaser's Duties to Take Actions to Allow Product Utilization

Throughout the Delivery Period, Purchaser and Seller shall take all commercially reasonable actions and execute all documents or instruments reasonably necessary to ensure (a) Purchaser's rights to the Expected Contract Quantity for the sole benefit of Purchaser or any Subsequent Purchaser and (b) that Purchaser may use the Expected Contract Quantity to meet its Compliance Obligations. Such commercially reasonable actions shall include, without limitation cooperating with and providing, and causing each Shown Unit's SC, owner, or operator to cooperate with and provide, requested supporting documentation to the CAISO, the CPUC, or any other Governmental Body responsible for administering the applicable Compliance Obligations, including to demonstrate that the Expected Contract Quantity can be delivered to the CAISO controlled grid for the minimum hours required to satisfy the Compliance Obligations, as applicable, pursuant to the "deliverability" standards established by the CAISO or other Governmental Body of competent jurisdiction.

If necessary, the Parties further agree to negotiate in good faith to amend this Confirmation to conform this Transaction to subsequent clarifications, revisions, or decisions rendered by CAISO or an applicable Governmental Body to maintain the benefits of the Transaction.

SJCE ID 21-199-13

4.3 Seller's Representations and Warranties

Seller represents and warrants to Purchaser throughout the Delivery Period that:

- (a) No part of the Contract Quantity during the Delivery Period has been committed by Seller to any third party to satisfy Compliance Obligations or analogous obligations in any CAISO or non-CAISO markets;
- (b) The Shown Unit(s) qualify to provide the Product under the Tariff, and the Shown Unit(s) and Seller are capable of delivering the Product;
- (c) the aggregation of all amounts of Capacity Attributes that Seller has sold, assigned, or transferred for the Shown Unit(s) during the Delivery Period does not exceed the Shown Unit's Net Qualifying Capacity and, if applicable, the Effective Flexible Capacity for that Shown Unit;
- (d) if applicable, Seller has notified either the Shown Unit's SC or the entity from which Seller purchased the Product that Seller has transferred the Contract Quantity of Product for the Delivery Period to Purchaser; and
- (e) Seller has notified or will notify the Shown Unit's SC that Purchaser is entitled to the revenues set forth in Section 3.2(b), and such Shown Unit's SC is obligated to promptly deliver those revenues to Purchaser, along with appropriate documentation supporting the amount of those revenues.

4.4 Market Based Rate Authority

Upon Purchaser's written request, Seller shall, in accordance with FERC Order No. 697, submit a letter of concurrence in support of any affirmative statement by Purchaser that this contractual arrangement does not transfer "ownership or control of generation capacity" from Seller to Purchaser as the term "ownership or control of generation capacity" is used in 18 CFR Section 35.42. Seller shall not, in filings, if any, made subject to Order Nos. 652 and 697, claim that this contractual arrangement conveys ownership or control of generation capacity from Seller to Purchaser.

ARTICLE 6 ADDITIONAL WSPP AGREEMENT AMENDMENTS; GENERAL PROVISIONS

6.1 Termination Payment

For this Transaction, the following is inserted as a penultimate paragraph in Section 22.2(b) of the WSPP Agreement:

SJCE ID 21-199-13

“If Purchaser is the Non-Defaulting Party and Purchaser reasonably expects to incur or be liable for any penalties, fines or costs from CAISO, or any Governmental Body, because Purchaser or a Subsequent Purchaser is not able to include the applicable Expected Contract Quantity in a Compliance Showing due to Seller’s Event of Default, then Purchaser may, in good faith, estimate the amount of those penalties, fines or costs and include the estimate in its determination of the Termination Payment, subject to accounting to Seller when those penalties, fines or costs are finally ascertained. If this accounting establishes that Purchaser’s estimate exceeds the actual amount of penalties, fines or costs, Purchaser must promptly remit to Seller the excess amount with interest in accordance with Section 9.3 of the WSPP Agreement. The rights and obligations with respect to determining and paying any Termination Payment, and any dispute resolution provisions with respect thereto, survive the termination of this Transaction and continue until after those penalties, fines or costs are finally ascertained.”

6.2 Confidentiality

Each Party recognizes that this Confirmation is subject to the requirements of the California Public Records Act (Government Code Section 6250 et seq.).

6.3 Dodd-Frank Act

The Parties intend this Transaction to be a “customary commercial arrangement” as described in Section II.A.1 of Commodity Futures Trading Commission, *Proposed Guidance, Certain Natural Gas and Electric Power Contracts*, 81 Fed. Reg. 20583 at 20586 (Apr. 8, 2016) and a “Forward Capacity Transaction” within the meaning of Commodity Futures Trading Commission, *Final Order in Response to a Petition From Certain Independent System Operators and Regional Transmission Organizations To Exempt Specified Transactions Authorized by a Tariff or Protocol Approved by the Federal Energy Regulatory Commission*, 78 Fed. Reg. 19,880 (Apr. 2, 2013).

6.4 Change in Law

If any action by the CPUC, CAISO or any Governmental Body having jurisdiction, or any change in applicable law, occurring after the Confirmation Effective Date results in (i) material changes to Purchaser’s or Seller’s obligations with regard to the Products sold hereunder, (ii) has the effect of changing the transfer and sale procedure set forth in this Confirmation so that the performance of this Confirmation becomes impracticable, or (iii) changes the Resource Adequacy Requirements such that the Product can no longer be counted towards Purchaser’s Resource Adequacy Requirements (a “Change in Law”), the Parties shall work in good faith to revise this Confirmation so that the Parties can perform their obligations regarding the purchase and sale of the Product sold hereunder in order to maintain the original intent.

6.5 Governing Law

Notwithstanding Section 24 of the WSPP Agreement, this Transaction and the rights and duties of the Parties hereunder shall be governed by and construed, enforced and performed in accordance with the laws of the state of California, without regard to principles of conflicts of law.

SJCE ID 21-199-13

6.6 **Collateral**

Notwithstanding any provision in the WSPP Agreement to the contrary, including Section 27, neither Party shall be required to post collateral or other security for this Transaction.

6.7 **No Recourse to Members of Purchaser**

Purchaser is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) and is a public entity separate from its constituent members. Purchaser will solely be responsible for all debts, obligations and liabilities accruing and arising out of this Confirmation. Seller will have no rights and shall not make any claims, take any actions or assert any remedies against any of Purchaser's constituent members, or the officers, directors, advisors, contractors, consultants or employees of Purchaser or Purchaser's constituent members, in connection with this Confirmation.

6.8 **Designated Fund and Limited Obligations**

- (a) **Designated Fund.** Seller is a municipal corporation and is precluded under the California State Constitution and applicable law from entering into obligations that financially bind future governing bodies, and, therefore, nothing in the Agreement shall constitute an obligation of future legislative bodies of the City to appropriate funds for purposes of the Agreement; provided, however, that (i) Seller has created and set aside a designated fund (the "**Designated Fund**") for payment of its obligations under the Agreement and (ii) subject to the requirements and limitations of applicable law and taking into account other available money specifically authorized by the San José City Council and allocated and appropriated to the San José Clean Energy's obligations, Seller agrees to establish San José Clean Energy rates and charges that are sufficient to maintain revenues in the Designated Fund necessary to pay its obligations under this Agreement and all of Seller's payment obligations under its other contracts for the purchase of energy for San José Clean Energy. Seller shall provide Purchaser with reasonable access to account balance information with respect to the San José Clean Energy Designated Fund during the Term.
- (b) **Limited Obligations.** Seller's payment obligations under the Agreement are special limited obligations of the Seller payable solely from the Designated Fund and are not a charge upon the revenues or general fund of the City of San José or upon any non- San José Clean Energy moneys or other property of the Community Energy Department or the City of San José.

6.9 **City of San José Standard Provisions**

- (a) **Nondiscrimination/Non-Preference.** Purchaser shall not, and shall not cause or allow its subcontractors to, discriminate against or grant preferential treatment to any person on the basis of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity, disability, ethnicity or national origin. This

prohibition applies to recruiting, hiring, demotion, layoff, termination, compensation, fringe benefits, advancement, training, apprenticeship and other terms, conditions, or privileges of employment, subcontracting and purchasing. Purchaser will inform all subcontractors of these obligations. This prohibition is subject to the following conditions: (i) the prohibition is not intended to preclude Purchaser from providing a reasonable accommodation to a person with a disability; (ii) the City's Compliance Officer may require Purchaser to file, and cause any Purchaser's subcontractor to file, reports demonstrating compliance with this section. Any such reports shall be filed in the form and at such times as the City's Compliance Officer designates. They shall contain such information, data and/or records as the City's Compliance Officer determines is needed to show compliance with this provision.

- (b) Conflict of Interest. Purchaser represents that it is familiar with the local and state conflict of interest laws, and agrees to comply with those laws in performing this Agreement. Purchaser certifies that, as of the Effective Date, it was unaware of any facts constituting a conflict of interest or creating an appearance of a conflict of interest. Purchaser shall avoid all conflicts of interest or appearances of conflicts of interest in performing this Agreement. Purchaser has the obligation of determining if the manner in which it performs any part of this Agreement results in a conflict of interest or an appearance of a conflict of interest, and shall immediately notify the Seller in writing if it becomes aware of any facts giving rise to a conflict of interest or the appearance of a conflict of interest. Purchaser's violation of this subsection (b) is a material breach.
- (c) Environmentally Preferable Procurement Policy. Purchaser shall perform its obligations under this Agreement in conformance with San José City Council Policy 1-19, entitled "Prohibition of City Funding for Purchase of Single serving Bottled Water," and San José City Council Policy 4-6, entitled "Environmentally Preferable Procurement Policy," as those policies may be amended from time to time. The Parties acknowledge and agree that in no event shall a breach of this subsection (c) be a material breach of this Agreement or otherwise give rise to an Event of Default or entitle Seller to terminate this Agreement.
- (d) Gifts Prohibited. Purchaser represents that it is familiar with Chapter 12.08 of the San José Municipal Code, which generally prohibits a City of San José officer or designated employee from accepting any gift. Purchaser shall not offer any City of San José officer or designated employee any gift prohibited by Chapter 12.08. Purchaser's violation of this subsection (d) is a material breach.
- (e) Disqualification of Former Employees. Purchaser represents that it is familiar with Chapter 12.10 of the San José Municipal Code, which generally prohibits a former City of San José officer and former designated employee from providing services to the City of San José connected with his/her former duties or official responsibilities. Purchaser shall not use either directly or indirectly any officer, employee or agent to perform any services if doing so would violate Chapter 12.10.

6.10 Other WSPP Agreement Changes

For this Transaction, the WSPP Agreement shall be amended as follows:

- (a) Section 9.4 is deleted in its entirety and replaced with the following:

“In the event an invoice or portion thereof, or any other claim or adjustment arising hereunder, is disputed, payment of the undisputed portion of the invoice shall be required to be made when due, with notice of the objection given to the other Party. Any invoice dispute or invoice adjustment shall be in writing and shall state the basis for the dispute or adjustment. Payment of the disputed amount shall not be required until the dispute is resolved. Upon resolution of the dispute, any required payment shall be made within two (2) Business Days of such resolution along with interest accrued at the Interest Rate from and including the due date to but excluding the date paid. Inadvertent overpayments shall be returned upon request or deducted by the Party receiving such overpayment from subsequent payments, with interest accrued at the Interest Rate from and including the date of such overpayment to but excluding the date repaid or deducted by the Party receiving such overpayment. Any dispute with respect to an invoice is waived unless the other Party is notified in writing within twelve (12) months after the invoice is rendered or any specific adjustment to the invoice is made. If an invoice is not rendered within twelve (12) months after the close of the month during which performance of a Transaction occurred, the right to payment for such performance is waived.”

- (b) Section 22.1 is modified by inserting the following new text at the end thereof:

“(f) the failure of the Defaulting Party to pay its debts generally as they become due or the Defaulting Party’s admission in a writing that is unable to generally pay its debts as they become due;

(g) the institution, by the Defaulting Party, of a general assignment for the benefit of its creditors; or

(h) the application for, consent to, or acquiescence to, by the Defaulting Party, the appointment of a receiver, custodian, trustee, liquidator, or similar official for all or a substantial portion of its assets.”

- (c) Section 22.2(b) is amended by inserting “and is continuing” after “Event of Default occurs” in the first line thereof and deleting the second sentence therein.

- (d) Section 22.3(c) is amended by deleting the third sentence thereof and replacing it with the following: “If the Non-Defaulting Party’s aggregate Gains exceed its aggregate Losses and Costs, if any, resulting from the termination of this Agreement or a Confirmation, the Termination Payment for all such Terminated Transactions shall be zero, notwithstanding any provision in this Section or Agreement to the contrary.”

SJCE ID 21-199-13

- (e) In Section 22.3(e), delete the entire provision (including subsections) and replace it with the following: “[Intentionally omitted]”
- (f) In Section 22.3(f), delete the entire provision and replace it with the following:

**ARTICLE 2
DELIVERY OBLIGATIONS AND ADJUSTMENTS**

2.1 Sale and Delivery of Product

- (a) For each Showing Month of the Delivery Period, Seller shall sell and deliver to Purchaser, and Purchaser shall purchase and receive from Seller, the Expected Contract Quantity of the Product from the Shown Unit(s). Seller's obligation to deliver the Expected Contract Quantity of Product for the Delivery Period is firm and will not be excused for any reason.
- (b) Seller shall deliver the Expected Contract Quantity by submitting to CAISO in its Supply Plan the Shown Unit(s) and the characteristics of the Shown Unit(s) and Product for Purchaser, as further specified in Appendix B, all in compliance with this Confirmation.
- (c) Seller shall cause all Supply Plans to meet and be filed in conformance with the requirements of the CPUC and the Tariff. Seller shall submit, or cause the Shown Unit's SC to submit, on a timely basis with respect to each applicable Showing Month, Supply Plans in accordance with the Tariff and CPUC requirements to identify and confirm the Product delivered to Purchaser for each Showing Month of the Delivery Period. The total amount of Product identified and confirmed for such Showing Month shall equal the Expected Contract Quantity, including a request for Hold-Back Capacity pursuant to Article Five of this Confirmation.
- (d) Seller shall sell and deliver Product from a Shown Unit that meets the requirements set forth in Appendix B, including the Resource Category and, if applicable, the Flexible Capacity Category. In no event shall a Shown Unit utilize coal or coal materials as a source of fuel. A Shown Unit must be a specific resource that is connected directly to the CAISO controlled grid or be under the operational control of CAISO. A Shown Unit may not be an unspecified import. Seller shall identify the Shown Unit(s) and Expected Contract Quantity by providing Purchaser with the specific information contemplated in Appendix B no later than the Notification Deadline for the relevant Showing Month.
- (e) If CAISO rejects either the Supply Plan or the Resource Adequacy Plan with respect to any part of the Expected Contract Quantity for the Shown Unit(s) in any Showing Month, the Parties shall confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plan or Resource Adequacy Plan for validation before the applicable deadline for the Showing Month.
- (f) The Product is delivered and received when the CIRA Tool shows that the Supply Plan submitted in compliance with Purchaser's instructions, including Purchaser's instructions to withhold all or part of the Expected Contract Quantity from Seller's Supply Plan for any Showing Month during the Delivery Period, has been accepted for the Product from the Shown Unit(s) by CAISO. Seller has failed to deliver the

**Joint CCA WSPP Standard RA Confirmation

Product if (i) Purchaser has elected to submit the Product from the Shown Unit in its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or (ii) Seller fails to submit the volume of Expected Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Seller will not have failed to deliver the Expected Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit(s) and the Product in its Resource Adequacy Plan with the CPUC or CAISO.

- (g) Hold-Back Capacity, if any, is deemed Contract Quantity delivered, unless utilized under Article Five as Substitute Capacity, then Contract Quantity is delivered according to the timeline requirements therein.
- (h) The Shown Unit(s) must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.¹

2.2 Reductions in Contract Quantity

- (a) If Seller is providing Contingent Firm RA Product, Seller's obligation to deliver the Contract Quantity for each Showing Month may be reduced at Seller's option by the amount of any Planned Outages which exist with respect to any portion of the Unit during the applicable Showing Month; provided, (i) Seller notifies Purchaser by the Notification Deadline applicable to that Showing Month of the amount of Product from the Unit that Purchaser may include in Purchaser's Compliance Showings applicable to that month as a result of such Planned Outage, and (ii) such reduction is able to be reflected on the Supply Plans in accordance with the Tariff.
- (b) In the event Seller is unable to provide the Contract Quantity for any portion of a Showing Month because of a Planned Outage of a Unit, Seller has the option, but not the obligation, to provide Product for such portions of such Showing Month from Replacement Units, provided Seller provides and identifies such Replacement Units in accordance with Section 2.3.
- (c) Seller's obligation to deliver the Contract Quantity for each day of each Showing Month may be reduced at Seller's option in the event Purchaser fails to deliver, for any reason, the contract quantity of product set forth in Appendix B of the Swap Confirmation (such option, the "Swap Reduction Option"); provided, however, that (i) Seller's obligation to deliver the Contract Quantity of Product may not be reduced by an amount greater than the contract quantity of product that Purchaser failed to deliver under the Swap Confirmation and (ii) that the Swap Reduction Option is subject to Seller providing written notice to Purchaser of such

modification no later than two (2) Business Days before the initial Compliance Showing deadline for such Showing Month. Seller's rights under the Swap Reduction Option are cumulative and in addition to Seller's rights under the Swap Confirmation.

2.3 Seller's Option To Provide Alternate Capacity

If Seller is unable to provide the full Contract Quantity for a Showing Month for any reason, including, without limitation, as provided in Section 2.2, or Seller desires to provide some or all of the Contract Quantity for any Showing Month from a different generating unit other than the Unit, then Seller may, at no cost to Purchaser, provide Purchaser with replacement Product from one or more replacement units having the same Capacity Attributes of the Unit(s) originally identified in Appendix B, including the same Resource Category and, if applicable, the Flexible Capacity Category (each such unit, a "Replacement Unit") in an amount such that the total amount of Product provided to Purchaser from the Unit and any Replacement Unit(s) for each Showing Month is not more than the Contract Quantity, provided that in each case:

- (a) Seller shall notify Purchaser in writing of its intent to provide Alternate Capacity and shall identify the proposed Replacement Units from which such Alternate Capacity shall be provided no later than the Notification Deadline for Purchaser's Compliance Showings related to such Showing Month;
- (b) The proposed Replacement Units must (i) be accepted by the CAISO, and (ii) otherwise satisfy the requirements of this Agreement;
- (c) Seller shall, or shall cause the SC to submit a Supply Plan for each Showing Month and, if applicable, annual filing, no later than the Notification Deadline for Purchaser's Compliance Showings;
- (d) If Seller does not comply with the requirements of Sections 2.3(a), (b) and (c) for the applicable Showing Month and, if applicable, annual filing, then any such Replacement Units shall not be deemed a Replacement Unit for purposes of this Confirmation for that Showing Month and Seller shall not receive payment for such Product; and
- (e) The designation of any Replacement Unit(s) by Seller shall be subject to Purchaser's prior written approval, which shall not be unreasonably withheld.

Once Seller has identified in writing any Replacement Units that meet the requirements of this Section 2.3 and Purchaser has approved such Replacement Units as consistent with this Confirmation, then any such Replacement Units shall be deemed a Unit for purposes of this Confirmation for that Showing Month. Purchaser's approval of a Replacement Unit as to a given Showing Month shall not be construed as approval of such Replacement Unit for any subsequent Showing Month.

2.4 Planned Outages

As of the Confirmation Effective Date, Seller and Purchaser have agreed to all Planned Outages as specified in Appendix D (“Planned Outage Schedule”) for all relevant Showing Months for the following calendar year, or until the end of the Delivery Period, whichever is shorter. Seller may provide Purchaser with proposed changes to the Planned Outage Schedule from time to time. Within ten (10) Business Days after Purchaser’s receipt of any Seller proposed changes, Purchaser shall notify Seller in writing of any reasonable requests for modifications to such Seller proposed changes, and Seller shall, to the extent consistent with Prudent Operating Practice, accommodate Purchaser’s requests regarding the timing of any Seller proposed changes to the Planned Outage Schedule.

2.5 Purchaser’s Remedies for Seller’s Failure to Deliver Expected Contract Quantity

- (d) If Seller fails to deliver any part of the Expected Contract Quantity as required herein for any Showing Month, Seller shall be liable for damages pursuant to Section 21.3 of the WSPP Agreement, without reference to the word “hourly” therein.
- (e) Seller shall indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, including Environmental Costs, assessed against Purchaser by the CPUC, CAISO or other Governmental Body resulting from Seller’s failure to deliver the Product or a Shown Unit’s SC’s failure to timely or accurately submit Supply Plans in accordance with the Tariff and this Confirmation. The Parties shall use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

2.6 Purchaser’s Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Product; provided that any such re-sale must not increase Seller’s obligations hereunder other than as set forth in this Section 2.6(a). For any such a resale, the Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller shall, or shall cause the Shown Unit’s SC, to follow Purchaser’s instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller’s obligations under this Confirmation. Seller shall, and shall cause the Shown Unit’s SC, to take all commercially reasonable actions and execute all documents or instruments reasonably necessary to allow such Subsequent Purchasers to use such resold Product in a manner consistent with Purchaser’s rights under this Confirmation. If Purchaser incurs any

**Joint CCA WSPP Standard RA Confirmation

liability to a Subsequent Purchaser due to the failure of Seller or the Shown Unit's SC to comply with this Confirmation, Seller will be liable to Purchaser for the amounts Seller would have owed Purchaser under this Confirmation if Purchaser had not resold the Product.

- (b) Purchaser shall notify Seller in writing of any resale of Product and the Subsequent Purchaser no later than two (2) Business Days before the Notification Deadline for each Showing Month for which Purchaser has resold the Product. Purchaser shall notify Seller of any subsequent changes or further resales no later than two (2) Business Days before the Notification Deadline for the Showing Month.
- (c) If CAISO or CPUC develops a centralized capacity market, Purchaser will have exclusive rights to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity of Product for re-sale in such market, Seller and the Unit's SC shall comply with Purchaser's direction and Purchaser shall retain and receive all revenues from such re-sale.
- (d) Purchaser shall have the exclusive right to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity into the CAISO Competitive Solicitation Process (CSP) for CPM Capacity. Seller and the Unit's SC shall comply with the Purchaser's direction and, to the extent that the CAISO designates the Expected Contract Quantity as CPM Capacity, Purchaser shall be entitled to retain and receive the CPM Capacity Payment. Unless otherwise instructed by Purchaser, (i) Seller shall not, and shall cause the Unit's SC to not, offer any portion of the Expected Contract Quantity to CAISO as CPM Capacity and (ii) if CAISO designates any portion of the Contract Capacity as CPM Capacity, then Seller shall, and shall cause the Unit's SC to, promptly (and in any event within one (1) Business Day of the time Seller receives notification from CAISO) notify Purchaser of such designation, and if CAISO makes such a designation, Seller shall not, and shall cause the Unit's SC to not, accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

**ARTICLE 3
PAYMENTS**

3.1 Payment

Purchaser shall make a monthly payment to Seller for each Unit by the later of (i) ten (10) Calendar Days after Purchaser's receipt of Seller's invoice (which may be given upon first day of the Showing Month) and (ii) the twentieth (20th) of the Showing Month, or if the twentieth (20th) is not a Business Day the next following Business Day ("Monthly RA Capacity Payment"). **ARTICLE 2
DELIVERY OBLIGATIONS AND ADJUSTMENTS**

2.1 Sale and Delivery of Product

- (a) For each Showing Month of the Delivery Period, Seller shall sell and deliver to Purchaser, and Purchaser shall purchase and receive from Seller, the Expected Contract Quantity of the Product from the Shown Unit(s). Seller's obligation to deliver the Expected Contract Quantity of Product for the Delivery Period is firm and will not be excused for any reason.
- (b) Seller shall deliver the Expected Contract Quantity by submitting to CAISO in its Supply Plan the Shown Unit(s) and the characteristics of the Shown Unit(s) and Product for Purchaser, as further specified in Appendix B, all in compliance with this Confirmation.
- (c) Seller shall cause all Supply Plans to meet and be filed in conformance with the requirements of the CPUC and the Tariff. Seller shall submit, or cause the Shown Unit's SC to submit, on a timely basis with respect to each applicable Showing Month, Supply Plans in accordance with the Tariff and CPUC requirements to identify and confirm the Product delivered to Purchaser for each Showing Month of the Delivery Period. The total amount of Product identified and confirmed for such Showing Month shall equal the Expected Contract Quantity, including a request for Hold-Back Capacity pursuant to Article Five of this Confirmation.
- (d) Seller shall sell and deliver Product from a Shown Unit that meets the requirements set forth in Appendix B, including the Resource Category and, if applicable, the Flexible Capacity Category. In no event shall a Shown Unit utilize coal or coal materials as a source of fuel. A Shown Unit must be a specific resource that is connected directly to the CAISO controlled grid or be under the operational control of CAISO. A Shown Unit may not be an unspecified import. Seller shall identify the Shown Unit(s) and Expected Contract Quantity by providing Purchaser with the specific information contemplated in Appendix B no later than the Notification Deadline for the relevant Showing Month.
- (e) If CAISO rejects either the Supply Plan or the Resource Adequacy Plan with respect to any part of the Expected Contract Quantity for the Shown Unit(s) in any Showing Month, the Parties shall confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plan or Resource Adequacy Plan for validation before the applicable deadline for the Showing Month.
- (f) The Product is delivered and received when the CIRA Tool shows that the Supply Plan submitted in compliance with Purchaser's instructions, including Purchaser's instructions to withhold all or part of the Expected Contract Quantity from Seller's Supply Plan for any Showing Month during the Delivery Period, has been accepted for the Product from the Shown Unit(s) by CAISO. Seller has failed to deliver the

**Joint CCA WSPP Standard RA Confirmation

Product if (i) Purchaser has elected to submit the Product from the Shown Unit in its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or (ii) Seller fails to submit the volume of Expected Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Seller will not have failed to deliver the Expected Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit(s) and the Product in its Resource Adequacy Plan with the CPUC or CAISO.

- (g) Hold-Back Capacity, if any, is deemed Contract Quantity delivered, unless utilized under Article Five as Substitute Capacity, then Contract Quantity is delivered according to the timeline requirements therein.
- (h) The Shown Unit(s) must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.¹

2.2 Reductions in Contract Quantity

- (a) If Seller is providing Contingent Firm RA Product, Seller's obligation to deliver the Contract Quantity for each Showing Month may be reduced at Seller's option by the amount of any Planned Outages which exist with respect to any portion of the Unit during the applicable Showing Month; provided, (i) Seller notifies Purchaser by the Notification Deadline applicable to that Showing Month of the amount of Product from the Unit that Purchaser may include in Purchaser's Compliance Showings applicable to that month as a result of such Planned Outage, and (ii) such reduction is able to be reflected on the Supply Plans in accordance with the Tariff.
- (b) In the event Seller is unable to provide the Contract Quantity for any portion of a Showing Month because of a Planned Outage of a Unit, Seller has the option, but not the obligation, to provide Product for such portions of such Showing Month from Replacement Units, provided Seller provides and identifies such Replacement Units in accordance with Section 2.3.
- (c) Seller's obligation to deliver the Contract Quantity for each day of each Showing Month may be reduced at Seller's option in the event Purchaser fails to deliver, for any reason, the contract quantity of product set forth in Appendix B of the Swap Confirmation (such option, the "Swap Reduction Option"); provided, however, that (i) Seller's obligation to deliver the Contract Quantity of Product may not be reduced by an amount greater than the contract quantity of product that Purchaser failed to deliver under the Swap Confirmation and (ii) that the Swap Reduction Option is subject to Seller providing written notice to Purchaser of such

modification no later than two (2) Business Days before the initial Compliance Showing deadline for such Showing Month. Seller's rights under the Swap Reduction Option are cumulative and in addition to Seller's rights under the Swap Confirmation.

2.3 Seller's Option To Provide Alternate Capacity

If Seller is unable to provide the full Contract Quantity for a Showing Month for any reason, including, without limitation, as provided in Section 2.2, or Seller desires to provide some or all of the Contract Quantity for any Showing Month from a different generating unit other than the Unit, then Seller may, at no cost to Purchaser, provide Purchaser with replacement Product from one or more replacement units having the same Capacity Attributes of the Unit(s) originally identified in Appendix B, including the same Resource Category and, if applicable, the Flexible Capacity Category (each such unit, a "Replacement Unit") in an amount such that the total amount of Product provided to Purchaser from the Unit and any Replacement Unit(s) for each Showing Month is not more than the Contract Quantity, provided that in each case:

- (a) Seller shall notify Purchaser in writing of its intent to provide Alternate Capacity and shall identify the proposed Replacement Units from which such Alternate Capacity shall be provided no later than the Notification Deadline for Purchaser's Compliance Showings related to such Showing Month;
- (b) The proposed Replacement Units must (i) be accepted by the CAISO, and (ii) otherwise satisfy the requirements of this Agreement;
- (c) Seller shall, or shall cause the SC to submit a Supply Plan for each Showing Month and, if applicable, annual filing, no later than the Notification Deadline for Purchaser's Compliance Showings;
- (d) If Seller does not comply with the requirements of Sections 2.3(a), (b) and (c) for the applicable Showing Month and, if applicable, annual filing, then any such Replacement Units shall not be deemed a Replacement Unit for purposes of this Confirmation for that Showing Month and Seller shall not receive payment for such Product; and
- (e) The designation of any Replacement Unit(s) by Seller shall be subject to Purchaser's prior written approval, which shall not be unreasonably withheld.

Once Seller has identified in writing any Replacement Units that meet the requirements of this Section 2.3 and Purchaser has approved such Replacement Units as consistent with this Confirmation, then any such Replacement Units shall be deemed a Unit for purposes of this Confirmation for that Showing Month. Purchaser's approval of a Replacement Unit as to a given Showing Month shall not be construed as approval of such Replacement Unit for any subsequent Showing Month.

2.4 Planned Outages

As of the Confirmation Effective Date, Seller and Purchaser have agreed to all Planned Outages as specified in Appendix D (“Planned Outage Schedule”) for all relevant Showing Months for the following calendar year, or until the end of the Delivery Period, whichever is shorter. Seller may provide Purchaser with proposed changes to the Planned Outage Schedule from time to time. Within ten (10) Business Days after Purchaser’s receipt of any Seller proposed changes, Purchaser shall notify Seller in writing of any reasonable requests for modifications to such Seller proposed changes, and Seller shall, to the extent consistent with Prudent Operating Practice, accommodate Purchaser’s requests regarding the timing of any Seller proposed changes to the Planned Outage Schedule.

2.5 Purchaser’s Remedies for Seller’s Failure to Deliver Expected Contract Quantity

- (d) If Seller fails to deliver any part of the Expected Contract Quantity as required herein for any Showing Month, Seller shall be liable for damages pursuant to Section 21.3 of the WSPP Agreement, without reference to the word “hourly” therein.
- (e) Seller shall indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, including Environmental Costs, assessed against Purchaser by the CPUC, CAISO or other Governmental Body resulting from Seller’s failure to deliver the Product or a Shown Unit’s SC’s failure to timely or accurately submit Supply Plans in accordance with the Tariff and this Confirmation. The Parties shall use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

2.6 Purchaser’s Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Product; provided that any such re-sale must not increase Seller’s obligations hereunder other than as set forth in this Section 2.6(a). For any such a resale, the Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller shall, or shall cause the Shown Unit’s SC, to follow Purchaser’s instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller’s obligations under this Confirmation. Seller shall, and shall cause the Shown Unit’s SC, to take all commercially reasonable actions and execute all documents or instruments reasonably necessary to allow such Subsequent Purchasers to use such resold Product in a manner consistent with Purchaser’s rights under this Confirmation. If Purchaser incurs any

liability to a Subsequent Purchaser due to the failure of Seller or the Shown Unit's SC to comply with this Confirmation, Seller will be liable to Purchaser for the amounts Seller would have owed Purchaser under this Confirmation if Purchaser had not resold the Product.

- (b) Purchaser shall notify Seller in writing of any resale of Product and the Subsequent Purchaser no later than two (2) Business Days before the Notification Deadline for each Showing Month for which Purchaser has resold the Product. Purchaser shall notify Seller of any subsequent changes or further resales no later than two (2) Business Days before the Notification Deadline for the Showing Month.
- (c) If CAISO or CPUC develops a centralized capacity market, Purchaser will have exclusive rights to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity of Product for re-sale in such market, Seller and the Unit's SC shall comply with Purchaser's direction and Purchaser shall retain and receive all revenues from such re-sale.
- (d) Purchaser shall have the exclusive right to direct the Seller or the Unit's SC to offer, bid, or otherwise submit the Expected Contract Quantity into the CAISO Competitive Solicitation Process (CSP) for CPM Capacity. Seller and the Unit's SC shall comply with the Purchaser's direction and, to the extent that the CAISO designates the Expected Contract Quantity as CPM Capacity, Purchaser shall be entitled to retain and receive the CPM Capacity Payment. Unless otherwise instructed by Purchaser, (i) Seller shall not, and shall cause the Unit's SC to not, offer any portion of the Expected Contract Quantity to CAISO as CPM Capacity and (ii) if CAISO designates any portion of the Contract Capacity as CPM Capacity, then Seller shall, and shall cause the Unit's SC to, promptly (and in any event within one (1) Business Day of the time Seller receives notification from CAISO) notify Purchaser of such designation, and if CAISO makes such a designation, Seller shall not, and shall cause the Unit's SC to not, accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

ARTICLE 3
PAYMENTS

3.1 Payment

Purchaser shall make a monthly payment to Seller for each Unit by the later of (i) ten (10) Calendar Days after Purchaser's receipt of Seller's invoice (which may be given upon first day of the Showing Month) and (ii) the twentieth (20th) of the Showing Month, or if the twentieth (20th) is not a Business Day the next following Business Day ("Monthly RA Capacity Payment"). The Monthly RA Capacity Payment shall equal the product of (a) the applicable Contract Price for that Showing Month, (b) the Expected Contract Quantity for the Showing Month and (c) 1,000, rounded to the nearest penny (i.e., two decimal places); provided, however, that the Monthly RA Capacity Payment shall be adjusted to reflect any portion of Expected Contract Quantity for the

Showing Month that was not delivered in accordance with Section 2.1 for such Showing Month.

3.2 Allocation of Other Payments and Costs

Purchaser must promptly report receipt of any such revenues to Seller. Purchaser must pay to Seller any such amounts described in this Section 3.2(a) received by Purchaser or a Subsequent Purchaser. Without prejudice to its other rights and remedies, Seller may setoff and recoup any such amounts that are not paid to it pursuant to this Section 3.2(a) against any amounts owed to Purchaser under the WSPP Agreement.
- (b) Purchaser is to receive and retain all revenues associated with the Expected Contract Quantity of Product during the Delivery Period, including any capacity and availability revenues from the Capacity Procurement Mechanism, or its successor, RUC Availability Payments, or its successor, but excluding payments described in Section 3.2(a)(i)-(v) or 3.2(d). Seller shall promptly report receipt of any such revenues to Purchaser. Seller shall pay to Purchaser within thirty (30) days of receipt any such amounts received by Seller, or a Shown Unit's SC, owner, or operator. Without prejudice to its other rights, Purchaser may set off and recoup any such amounts that are not paid to it against amounts owed to Seller under the WSPP Agreement.
- (c) If CAISO designates any part of the Contract Quantity as Capacity Procurement Mechanism Capacity, then Seller shall, or shall cause the Shown Unit's SC to, within one (1) Business Day of the time Seller receives notification from CAISO, notify Purchaser and not accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.
- (d) Any Availability Incentive Payments or Non-Availability Charges are for Seller to receive and pay.

**ARTICLE 4

Purchaser is not liable for, and Seller shall indemnify and hold Purchaser harmless from, the failure of Seller or the Shown Unit's SC, owner, or operator to comply with the Tariff, and for any penalties, fines or costs imposed on Seller or the Shown Unit's SC, owner, or operator for noncompliance.

**Joint CCA WSPP Standard RA Confirmation

4.2 Seller's and Purchaser's Duties to Take Actions to Allow Product Utilization

Throughout the Delivery Period, Purchaser and Seller shall take all commercially reasonable actions and execute all documents or instruments reasonably necessary to ensure (a) Purchaser's rights to the Expected Contract Quantity for the sole benefit of Purchaser or any Subsequent Purchaser and (b) that Purchaser may use the Expected Contract Quantity to meet its Compliance Obligations. Such commercially reasonable actions shall include, without limitation cooperating with and providing, and causing each Shown Unit's SC, owner, or operator to cooperate with and provide, requested supporting documentation to the CAISO, the CPUC, or any other Governmental Body responsible for administering the applicable Compliance Obligations, including to demonstrate that the Expected Contract Quantity can be delivered to the CAISO controlled grid for the minimum hours required to satisfy the Compliance Obligations, as applicable, pursuant to the "deliverability" standards established by the CAISO or other Governmental Body of competent jurisdiction.

WSPP RESOURCE ADEQUACY CONFIRMATION

This Confirmation under the WSPP Agreement confirms the transaction between Silicon Valley Clean Energy Authority, a California joint powers authority ("Purchaser" or "SVCE") and Elk Hills Power, LLC ("EHP" or "Seller") dated as of September 23, 2021 (the "Effective Date"), by which Seller agrees to sell and deliver, and Purchaser agrees to purchase and receive, the Product (the "Transaction"). Capitalized terms not otherwise defined in this Confirmation or the WSPP Agreement are defined in the Tariff.

ARTICLE 1 **TRANSACTION TERMS**

Purchaser: Silicon Valley Clean Energy Authority

Seller: EHP

Product, Delivery Period, Contract Quantity, Contract Price and other specifics of the Product are in Appendix B. Appendices A, B and C are incorporated into this Confirmation.

ARTICLE 2 **DELIVERY OBLIGATIONS AND ADJUSTMENTS**

2.1 Sale and Delivery of Product

- (a) For each Showing Month of the Delivery Period, Seller will sell and deliver to Purchaser, and Purchaser will purchase and receive from Seller, the Contract Quantity of the Product from the Shown Unit(s).
- (b) Seller will deliver the Contract Quantity of Product by submitting to CAISO in its Supply Plan the Shown Unit for Purchaser, as further specified in Appendix B, all in compliance with this Confirmation.
- (c) Seller will cause all Supply Plans to meet and be filed in conformance with the requirements of the Tariff. Seller will submit, or cause the Unit's SC to submit, on a timely basis with respect to each applicable Showing Month, Supply Plans in accordance with the Tariff requirements to identify and confirm the Product delivered to Purchaser for each Showing Month of the Delivery Period. The total amount of Product identified and confirmed for each day of such Showing Month will equal the Contract Quantity, less any excused deductions to the Contract Quantity in the case of Flexible RA Capacity for excused reductions in Unit EFC.
- (d) Seller may sell and deliver from a Shown Unit that meets requirements set forth in Appendix B, including the Resource Category and, if applicable, the Flexible Capacity Category. Seller will identify the Shown Unit(s) and Contract Quantity by providing Purchaser with the specific Unit information contemplated in Appendix B no later than the Notification Deadline for the relevant Showing Month.
- (e) If CAISO rejects either the Supply Plan or the Resource Adequacy Plan with respect to any part of the Contract Quantity for the Shown Unit in any Showing Month, the Parties will confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plan or Resource Adequacy Plan for validation before the applicable deadline for the Showing Month.

Final**23 SEPTEMBER 2021**

- (f) The Product is delivered by Seller and received by Purchaser when either (i) the CIRA Tool shows the Supply Plan accepted for the Contract Quantity of Product from the Shown Unit by CAISO or (ii) Seller complies with Purchaser's written instruction to withhold all or part of the Contract Quantity from Seller's Supply Plan for any Showing Month during the Delivery Period. Seller has failed to deliver the Product if (i) Purchaser has elected to submit the Product from the Shown Unit in its Resource Adequacy Plan and such submission is accepted by the CPUC and the CAISO but the Supply Plan and Resource Adequacy Plan are not matched in the CIRA Tool and are rejected by CAISO notwithstanding performance of Section 2.1(e) or, (ii) Seller fails to submit the volume of Contract Quantity for any Showing Month in such amount as instructed by Purchaser for the applicable Showing Month. Purchaser will have received the Contract Quantity if (i) Seller's Supply Plan is accepted by the CAISO for the applicable Showing Month or (ii) Seller complies with Purchaser's instruction to withhold all or part of the Contract Quantity from Seller's Supply Plan for the applicable Showing Month. Seller will not have failed to deliver the Contract Quantity if Purchaser fails or chooses not to submit the Shown Unit and the Product in its Resource Adequacy Plan with the CPUC or CAISO.
- (g) The Shown Unit must not have characteristics that would trigger the need for Purchaser or Seller to file an advice letter or other request for authorization with the CPUC or for Purchaser to make a compliance filing pursuant to California Public Utilities Code Section 380.¹
- (h) Excused Reductions in Unit EFC: Unless the Parties have designated this Section 2.1(h) as "Not applicable", if the Product includes FCR Attributes, then Seller's failure to deliver any of the Contract Quantity of FCR Attributes during the Delivery Period will be excused if the Unit experiences a reduction in Unit EFC after the Effective Date as determined by CAISO and Seller has provided notice of such reduction to Purchaser by the Notification Deadline for the applicable Showing Month. The extent to which Seller's failure is excused will equal (i) the Contract Quantity of FCR Attributes for such day multiplied by (ii) the total amount (in MW) by which the Unit EFC was reduced since the Effective Date, divided by (iii) the Unit EFC as of the Effective Date. If the Unit experiences such a reduction in Unit EFC, then Seller may, but is not obligated to, provide the applicable part of the Contract Quantity of FCR Attributes for such day from the Shown Unit.

2.2 Purchaser's Remedies for Seller's Failure to Deliver Contract Quantity

In addition to Purchaser's rights under Section 21.3, Seller agrees to indemnify, defend and hold harmless Purchaser from any penalties, fines or costs, assessed against Purchaser by the CPUC, CAISO or other Governmental Body resulting from Seller's failure to deliver the Product. The Parties will use commercially reasonable efforts to minimize such penalties, fines or costs; provided, that in no event will Purchaser be required to use or change its utilization of its owned or controlled assets or market positions to minimize these penalties, fines or costs. If Seller fails to pay the foregoing penalties, fines or costs, or fails to reimburse Purchaser for those penalties, fines or costs, then, without prejudice to its other rights and remedies, Purchaser may setoff and recoup those penalties, fines or costs against any future amounts it may owe to Seller under this Confirmation or the WSPP Agreement.

¹ For example, contracts with Once-Through Cooling resources that terminate one year or less before the State Water Resources Control Board compliance deadline require an advice letter filing under CPUC Decision 12-04-046

Final
23 SEPTEMBER 2021

2.3 Purchaser's Re-Sale of Product

- (a) Purchaser may re-sell all or part of the Contract Quantity of Product; provided that any such re-sale must not increase or modify Seller's obligations hereunder other than as set forth in this Section 2.3(a). For any such a resale, Resource Adequacy Plan of Purchaser as used herein will refer to the Resource Adequacy Plan of Subsequent Purchaser. Seller will, or will cause the Unit's SC, to follow Purchaser's instructions with respect to providing such resold Product to Subsequent Purchasers, to the extent such instructions are consistent with Seller's obligations under this Confirmation. Seller will, and will cause the Unit's SC, to take all commercially reasonable actions and execute all documents or instruments reasonably necessary to allow such Subsequent Purchasers to use such resold Product in a manner consistent with Purchaser's rights under this Confirmation. If Purchaser incurs any liability to a Subsequent Purchaser due to the failure of Seller or the Unit's SC to comply with this Confirmation, Seller will be liable to Purchaser for the same amounts Seller would have owed Purchaser under this Confirmation if Purchaser had not resold the Product.
- (b) Purchaser will notify Seller in writing of any resale of Product and the Subsequent Purchaser no later than two Business Days before the Notification Deadline for the Showing Month. Purchaser will notify Seller of any subsequent changes or further resales no later than two Business Days before the Notification Deadline for the Showing Month.
- (c) If CAISO or CPUC develops a centralized capacity market, Purchaser will have exclusive rights to direct the Seller or the Unit's Scheduling Coordinator to offer, bid, or otherwise submit the applicable Contract Quantity of Product for each day during the Delivery Period provided to Purchaser pursuant to this Confirmation for re-sale in such market, and Seller and the Unit's Scheduling Coordinator shall comply with Purchaser's direction to the extent Seller is not required to incur any additional costs to qualify such Contract Quantity of Product for participation in such centralized capacity market or follow such direction from Purchaser. Purchaser shall retain and receive all revenues from such re-sale.

ARTICLE 3
PAYMENTS

3.1 Payment

Purchaser shall pay for the Product as provided in Article 9 of the WSPP Agreement and this Confirmation; except that under Section 9.4 of the WSPP Agreement, in case any portion of any bill is in dispute, then only the undisputed portion of the bill shall be paid when due. The disputed portion of the bill shall be adjusted or paid upon final resolution of the dispute. Purchaser shall make a monthly payment to Seller for each Unit by the later of (i) ten (10) Calendar Days after Purchaser's receipt of Seller's invoice (which may be given upon first day of the Showing Month) and (ii) the twentieth (20th) of the Showing Month, or if the twentieth (20th) is not a Business Day the next following Business Day ("Monthly RA Capacity Payment"). The Monthly RA Capacity Payment shall equal the product of (a) the applicable Contract Price for that Showing Month, (b) the Expected Contract Quantity for the Showing Month and (c) 1,000, rounded to the nearest penny (i.e., two decimal places); provided, however, that the Monthly RA Capacity Payment shall be adjusted to reflect any portion of Expected Contract Quantity for the Showing Month that was not delivered in accordance with Section 2.1 for such Showing Month.

Final
23 SEPTEMBER 2021

3.2 Allocation of Other Payments and Costs

- (a) Product does not confer to Purchaser any right to dispatch or receive the energy or ancillary services from a Shown Unit. Seller will receive any revenues from, and must pay all costs charged by, CAISO or any other third party with respect to the Unit for (i) start-up, shutdown, and minimum load costs, (ii) capacity for ancillary services, (iii) energy sales, (iv) flexible ramping product, or (v) black start or reactive power services. Purchaser must promptly report receipt of any such revenues to Seller. Purchaser must pay to Seller any such amounts described in this Section 3.2(a) received by Purchaser or a Subsequent Purchaser. Without prejudice to its other rights and remedies, Seller may setoff and recoup any such amounts that are not paid to it against any amounts owed to Purchaser under the WSPP Agreement.
- (b) Purchaser is to receive and retain all revenues associated with the Contract Quantity of Product during the Delivery Period, including any capacity and availability revenues from the Capacity Procurement Mechanism, or its successor, RUC Availability Payments, or its successor, but excluding payments described in Section 3.2(a)(i)-(v) or 3.2(d). Seller must promptly report receipt of any such revenues to Purchaser. Seller must pay to Purchaser any such amounts received by Seller, or a Unit's SC, owner, or operator. Without prejudice to its other rights, Purchaser may set off and recoup any such amounts that are not paid to it against amounts owed to Seller under the WSPP Agreement.
- (c) If CAISO designates any part of the Contract Quantity as Capacity Procurement Mechanism Capacity, then Seller will, or will cause the Unit's SC to, within one Business Day of the time Seller receives notification from CAISO, notify Purchaser and not accept any such designation by CAISO unless and until Purchaser has agreed to accept such designation.

2.13 "Credit Rating" means, with respect to any entity, (a) the rating then assigned to such entity's unsecured, senior long-term debt obligations (not supported by third party credit enhancements), or (b) if such entity does not have a rating for its unsecured, senior long-term debt obligations, then the rating assigned to such entity as an issuer rating by S&P and/or Moody's. If the entity is rated by both S&P and Moody's and such ratings are not equivalent, the lower of the two ratings shall determine the Credit Rating. If the entity is rated by either S&P or Moody's, but not both, then the available rating shall determine the Credit Rating.

2.14 "Delivered Energy" means the Electric Energy from the Project that is delivered by Seller to Buyer at the Delivery Point.

2.15 "Electric Energy" means three-phase, 60-cycle alternating current electric energy measured in MWh and net of auxiliary loads and station electrical uses (unless otherwise specified).

2.16 "Eligible Renewable Energy Resource" or "ERR" has the meaning set forth in California Public Utilities Code Section 399.12 and California Public Resources Code Section 25741, as either code provision is amended or supplemented from time to time.

2.17 "Execution Date" means the latest signature date found on the signature page of this Agreement.

2.18 "Effective Date" is the same as the Execution Date.

2.19 "Force Majeure" means an event or circumstance which prevents one Party from performing its obligations under this Agreement, which event or circumstance was not anticipated as of the Execution Date, which is not within the reasonable control of, or the result of the negligence of, the Claiming Party, and which, by the exercise of due diligence, the Claiming Party is unable to overcome or avoid or cause to be avoided. Force Majeure shall not be based on (a) the loss of Buyer's markets; (b) Buyer's inability economically to use or resell the Product purchased hereunder; (c) the loss or failure of Seller's supply unless caused by a force majeure event at the Project; or (d) Seller's ability to sell the Product at a price greater than the Contract Price. Neither Party may raise a claim of Force Majeure based in whole or in part on curtailment by a Transmission Provider unless (i) such Party has contracted for firm

transmission with a Transmission Provider for the Product to be delivered to or received at the Delivery Point and (ii) such curtailment is due to “force majeure” or “uncontrollable force” or a similar term as defined under the Transmission Provider’s tariff; provided, however, that existence of the two foregoing factors shall not be sufficient to conclusively or presumptively prove the existence of a Force Majeure absent a showing of other facts and circumstances which in the aggregate with such factors establish that a Force Majeure as defined in the first sentence hereof has occurred.

2.20 “Governmental Authority” means any federal, state, local or municipal government, governmental department, commission, board, bureau, agency, or instrumentality, or any judicial, regulatory or administrative body, having jurisdiction as to the matter in question.

2.21 “Green Attributes” means any and all credits, benefits, emissions reductions, offsets, and allowances, howsoever entitled, attributable to the generation from the Project, and its avoided emission of pollutants. Green Attributes include but are not limited to Renewable Energy Credits, as well as: (a) any avoided emission of pollutants to the air, soil or water such as sulfur oxides (SOx), nitrogen oxides (NOx), carbon monoxide (CO) and other pollutants; (b) any avoided emissions of carbon dioxide (CO₂), methane (CH₄), nitrous oxide, hydrofluorocarbons, perfluorocarbons, sulfur hexafluoride and other greenhouse gases (GHGs) that have been determined by the United Nations Intergovernmental Panel on Climate Change, or otherwise by Law, to contribute to the actual or potential threat of altering the Earth’s climate by trapping heat in the atmosphere¹; (c) the reporting rights to these avoided emissions, such as Green Tag Reporting Rights. Green Tag Reporting Rights are the right of a Green Tag Purchaser to report the ownership of accumulated Green Tags in compliance with federal or state Law, if applicable, and to a federal or state agency or any other party at the Green Tag Purchaser’s discretion, and include without limitation those Green Tag Reporting Rights accruing under Section 1605(b) of The Energy Policy Act of 1992 and any present or future federal, state, or local Law, regulation or bill, and international or foreign emissions trading program. Green Tags are accumulated on a MWh basis and one Green Tag represents the Green Attributes associated with one (1) MWh of Electric Energy. Green Attributes do not include (i) any Electric Energy, capacity, reliability or other power attributes from the Project, (ii) production tax credits associated with the construction or operation of the Project and other financial incentives in the form of credits, reductions, or allowances associated with the Project that are applicable to a state or federal income taxation obligation, (iii) fuel-related subsidies or “tipping fees” that may be paid to Seller to accept certain fuels, or local subsidies received by the generator for the destruction of particular preexisting pollutants or the promotion of local environmental benefits, or (iv) emission reduction credits encumbered or used by the Project for compliance with local, state, or federal operating and/or air quality permits. If the Project is a biomass or biogas facility and Seller receives any tradable Green Attributes based on the greenhouse gas reduction benefits or other emission offsets attributed to its fuel usage, it shall provide Buyer with sufficient Green Attributes to ensure that there are zero net emissions associated with the production of electricity from the Project.

2.22 “Index Price” means the Trading Hub price (as defined in the Tariff) associated with the Delivered Energy to the Delivery Point for each applicable hour as published by the CAISO on the CAISO website or any successor thereto, unless a substitute publication and/or index is mutually agreed to by the Parties.

2.23 “Law” means any statute, law, treaty, rule, regulation, CEC guidance document, ordinance, code, permit, enactment, injunction, order, writ, decision, authorization, judgment, decree or other legal or regulatory determination or restriction by a court or Governmental Authority of competent

¹ Avoided emissions may or may not have any value for GHG compliance purposes. Although avoided emissions are included in the list of Green Attributes, this inclusion does not create any right to use those avoided emissions to comply with any GHG regulatory program.

jurisdiction, including any of the foregoing that are enacted, amended, or issued after the Execution Date, and which becomes effective after the Execution Date; or any binding interpretation of the foregoing. For the purposes of the definition of “CPUC Approval” in Section 2.15 and Sections 6.1(a), 6.1(b) and 8.3(b) in this Confirmation, the term “law” shall have the meaning set forth in this definition.

2.24 “Letter of Credit” means an irrevocable, non-transferable, standby letter of credit the form of which shall be substantially as contained in Appendix B to this Agreement; provided that, if the issuer is a U.S. branch of a foreign commercial bank, the intended beneficiary may require changes to such form; and the issuer must be a Qualified Institution on the date of delivery of the Letter of Credit to the Secured Party. In case of a conflict of this definition with any other definition of “Letter of Credit” contained in the EEI Agreement or any exhibit or annex thereto, this definition shall supersede any such other definition for purposes of the Transaction to which this Agreement applies.

2.25 “Market Quotation Average Price” means the arithmetic mean of the quotations solicited in good faith from not less than three (3) Reference Market-Makers (as hereinafter defined); provided, however, that the Party obtaining the quotes shall use reasonable efforts to obtain good faith quotations from at least five (5) Reference Market-Makers and, if at least five (5) such quotations are obtained, the Market Quotation Average Price shall be determined by disregarding the highest and lowest quotations and taking the arithmetic mean of the remaining quotations. The quotations shall be based on the offers to sell or bids to buy, as applicable, obtained for transactions substantially similar to each Terminated Transaction. The quote must be obtained assuming that the Party obtaining the quote will provide sufficient credit support for the proposed transaction. Each quotation shall be obtained, to the extent reasonably practicable, as of the same day and time (without regard to different time zones) on or as soon as reasonably practicable after the relevant Early Termination Date. The day and time as of which those quotations are to be obtained will be selected in good faith by the Party obtaining the quotations and in accordance with the Notice provided pursuant to Section 5.2 of the EEI Agreement, which designates the Early Termination Date. If fewer than three quotations are obtained, it will be deemed that the Market Quotations Average Price in respect of such Terminated Transaction or group of Terminated Transactions cannot be determined. For purposes of this Section 2.28, “Reference Market-Maker” means a leading dealer in the relevant market selected by a Party determining its exposure in good faith from among dealers of the highest credit standing which satisfy all the criteria that such Party applies generally at the time in deciding whether to offer or to make an extension of credit.

2.26 “Notice” means written communications by a Party to be delivered by hand delivery, United States mail, overnight courier service, or electronic messaging (e-mail). The contacts table of this Confirmation contains the names and addresses to be used for Notices.

2.27 “Qualified Institution” means either a U.S. commercial bank, or a U.S. branch of a foreign bank acceptable to the Beneficiary Party in its sole discretion; and in each case such bank must (i) have a Credit Rating of at least: (a) “A-, with a stable designation” from S&P and “A3, with a stable designation” from Moody’s, if such bank is rated by both S&P and Moody’s; or (b) “A-, with a stable designation” from S&P or “A3, with a stable designation” from Moody’s, if such bank is rated by either S&P or Moody’s, but not both, even if such bank was rated by both S&P and Moody’s as of the date of issuance of the Letter of Credit but ceases to be rated by either, but not both of those ratings agencies, and (ii) have assets of at least \$10 billion US Dollars.

2.28 “Real-Time Market” has the meaning set forth in the Tariff and shall include any market that CAISO may establish prior to or during the Term that clears at an interval between the Day-Ahead Market and the Real-Time Market.

2.29 “Renewable Energy Credit” or “REC” has the meaning set forth in California Public Utilities Code Section 399.12(h) and CPUC Decision 08-08-028, as may be amended from time to time or as further defined or supplemented by Law.

2.30 “Replacement Price” means the price at which Buyer, acting in a commercially reasonable manner, purchases for delivery at the Delivery Point a replacement for any Product specified in a Transaction but not delivered by Seller, plus (a) costs reasonably incurred by Buyer in purchasing such substitute Product and (b) additional transmission charges, if any, reasonably incurred by Buyer to the Delivery Point, or absent a purchase, the market price at the Delivery Point for such Product not delivered as determined by Buyer in a commercially reasonable manner; provided, however, in no event shall such price include any penalties, ratcheted demand or similar charges, nor shall Buyer be required to utilize or change its utilization of its owned or controlled assets or market positions to minimize Seller’s liability. For the purposes of this definition, Buyer shall be considered to have purchased replacement Product to the extent Buyer shall have entered into one or more arrangements in a commercially reasonable manner whereby Buyer repurchases its obligation to sell and deliver the Product to another party at the Delivery Point.

2.31 “Sales Price” means the price at which Seller, acting in a commercially reasonable manner, resells any Product not received by Buyer, deducting from such proceeds any (a) costs reasonably incurred by Seller in reselling such Product and (b) additional transmission charges, if any, reasonably incurred by Seller in delivering such Product to the third party purchasers, or absent a sale, the market price at the Delivery Point for such Product not received as determined by Seller in a commercially reasonable manner; provided, further, that in no event shall such price include any penalties, ratcheted demand or similar charges, nor shall Seller be required to utilize or change its utilization of its owned or controlled assets, including contractual assets, or market positions to minimize Buyer’s liability. For purposes of this definition, Seller shall be considered to have resold such Product to the extent Seller shall have entered into one or more arrangements in a commercially reasonable manner whereby Seller repurchases its obligation to purchase and receive the Product from another party at the Delivery Point.

2.32 “Tariff” means the CAISO Fifth Replacement FERC Electric Tariff and protocol provisions, including any CAISO-published procedures or business practice manuals, as they may be amended, supplemented or replaced (in whole or in part) from time to time.

2.33 “Transactions” as used in the EEI Agreement shall mean the “Transaction” as defined in the preamble above.

2.34 “WREGIS” means the Western Renewable Energy Generation Information System or any successor renewable energy tracking program.

2.35 “WREGIS Certificate” has the same meaning as “Certificate” as defined by WREGIS in the WREGIS Operating Rules and are designated as eligible for complying with the California Renewables Portfolio Standard.

2.36 “WREGIS Operating Rules” means the operating rules and requirements adopted by WREGIS.

ARTICLE 3
CONVEYANCE OF ELECTRIC ENERGY AND GREEN ATTRIBUTES

3.1 Seller's Delivery of Electric Energy.

Subject to the terms and conditions of this Agreement, beginning on the first day of the Energy Delivery Period and continuing until the last day of the Energy Delivery Period, Seller shall deliver and sell, and Buyer shall purchase and receive, the Delivered Energy.

3.2 Seller's Conveyance of Green Attributes.

(a) Green Attributes. Subject to the terms and conditions of this Agreement, beginning on the first day of the Green Attributes Delivery Period and continuing until the last day of the Green Attributes Delivery Period, Seller shall convey and sell, and Buyer shall purchase and receive, those Green Attributes associated with the Delivered Energy.

(i) Seller represents and warrants that Seller holds the rights to such Green Attributes from the Project and Seller agrees to convey such Green Attributes to Buyer as included in the delivery of the Product from the Project subject to the terms and conditions of this Agreement.

(ii) As set forth above, Seller shall convey only that amount of Green Attributes required to meet the Total Quantity and shall do so only during the Green Attributes Delivery Period.

(b) The Green Attributes in the amount of the Total Quantity shall be deemed to be conveyed to and received by Buyer under this Confirmation as set forth herein. During the Green Attributes Delivery Period, Seller shall convey to Buyer the Green Attributes associated with the Delivered Energy within: twenty-five (25) Business Days following the occurrence of both (i) the deposit into Seller's WREGIS account of the WREGIS Certificates for the Green Attributes for the applicable Calculation Period and (ii) Buyer's payment of the Monthly Cash Settlement Amount in accordance with Article 5 herein. Seller shall transfer such WREGIS Certificates in an amount equivalent to the Total Quantity to Buyer's WREGIS account such that all right, title and interest in and to the WREGIS Certificates shall transfer from Seller to Buyer.

ARTICLE 4
CPUC FILING AND APPROVAL

4.1 Filing for CPUC Approval.

Within sixty (60) days after the Execution Date, Seller shall file with the CPUC a request for CPUC Approval. Buyer shall use commercially reasonable efforts to support Seller in obtaining CPUC Approval. Seller shall have no obligation to seek rehearing or to appeal a CPUC decision which fails to approve this Confirmation or which contains findings required for CPUC Approval with conditions or modifications unacceptable to either Party. Notwithstanding anything to the contrary in the Confirmation, Seller shall not have any obligation or liability to Buyer or any third party for any action or inaction of the CPUC or other Governmental Authority affecting the approval or status of this Confirmation as a transaction eligible for portfolio content category 1, as defined in California Public Utilities Code Section 399.16(b)(1).

4.2 Termination Right and Transaction Termination Date.

In the event that: (a) the CPUC issues a final and non-appealable order not approving this Agreement in its entirety, (b) the CPUC issues a final and non-appealable order which contains conditions or modifications unacceptable to either Party, or (c) approval by the CPUC has not been received by Seller on or before sixty (60) days from the date on which Seller files for CPUC Approval, then either Party may, in its sole discretion, elect to terminate this Agreement upon Notice to the other Party provided in accordance with Article 10.7 of the EEI Agreement. Such Notice shall become effective one (1) Business Day after its provision. The effective date of the Notice shall constitute the “Transaction Termination Date”. Any termination elected and noticed in accordance with this Section 4.2 shall terminate all of the Parties’ rights and obligations under the Agreement as of the Transaction Termination Date.

4.3 Effect of Termination.

Any termination of the Agreement properly exercised by a Party under Section 4.2 shall be without liability or obligation, except for the Parties’ confidentiality obligations under Article 9 herein and in the EEI Agreement and shall have no effect on the status of the EEI Agreement.

ARTICLE 5 COMPENSATION

5.1 Calculation Period.

The “Calculation Period” shall be each calendar month or portion thereof that Delivered Energy was conveyed to Buyer and for which associated Green Attributes will be transferred to Buyer under this Confirmation as described in Section 3.2(b).

5.2 Monthly Cash Settlement Amount.

Buyer shall pay Seller the Monthly Cash Settlement Amount, in arrears, for each Calculation Period. The “Monthly Cash Settlement Amount” for a particular Calculation Period shall be equal to the sum of (a) plus (b) minus (c), where:

(a) equals the sum, over all hours of the Calculation Period, of the applicable Energy Price for each hour of Delivered Energy, multiplied by the quantity of Delivered Energy during that hour; and

(b) equals the Green Attributes Price multiplied by the quantity of Green Attributes (in MWhs) that will be conveyed as described in Section 3.2(b) and that are associated with the Delivered Energy in the Calculation Period; and

(c) equals the sum, over all hours of the Calculation Period, of the applicable Energy Price for each hour of Delivered Energy, multiplied by the quantity of Delivered Energy during that hour.

5.3 Payment Date.

Notwithstanding anything to the contrary in Article Six of the EEI Agreement, payment of each Monthly Cash Settlement Amount by Buyer to Seller under this Confirmation shall be due and payable four (4) calendar months following the applicable Calculation Period and on or before the later of: (a) the twentieth (20th) day of the month in which the Buyer receives from Seller an invoice for the Calculation Period to which the Monthly Cash Settlement Amount pertains, and (b) ten (10) days following the date

of Buyer's receipt of an invoice issued by Seller for such applicable Calculation Period; provided that, if such payment due date is not a Business Day, then on the next Business Day. Payment to Seller shall be made by wire transfer pursuant to the Notices section of this Agreement. This provision shall survive termination or expiration of the Agreement for all amounts due prior to such termination or expiration.

5.4 Invoices.

The invoice shall include a statement detailing the amount of Delivered Energy, and associated Green Attributes, transferred to Buyer during the applicable Calculation Period. For purposes of this Confirmation, Buyer shall be deemed to have received an invoice upon Buyer's receipt by e-mail of such invoice in PDF format from Seller. Invoices to Buyer shall be sent by email to set forth in the Notices section of this Agreement.

ARTICLE 6 REPRESENTATIONS, WARRANTIES AND COVENANTS

6.1 Seller's Representations, Warranties, and Covenants.

(a) **Seller Representations and Warranties.** Seller, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Project qualifies and is certified by the CEC as an Eligible Renewable Energy Resource ("ERR") as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Project's output delivered to Buyer qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law.

(b) Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the Renewable Energy Credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law.

(c) Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract.

(i) For the avoidance of doubt, the term "contract" as used in the immediately preceding paragraph means this Confirmation.

(ii) For further clarity, the phrase "first delivery" as used in the immediately preceding paragraph means the first date of the Green Attributes Delivery Period.

(d) In addition to the foregoing, Seller warrants, represents and covenants, as of the Execution Date and throughout the Delivery Term, that:

(i) Seller has the contractual rights to sell all right, title, and interest in the Product required to be delivered hereunder;

(ii) Seller has not sold the Product required to be delivered hereunder to any other person or entity;

(iii) at the time of delivery, all rights, title, and interest in the Product required to be delivered hereunder are free and clear of all liens, taxes, claims, security interests, or other encumbrances of any kind whatsoever;

(iv) Seller shall not substitute or purchase any Product from any generating resource other than the Project or the market for delivery hereunder; and

(v) the facility(s) designated by Seller as the Project and all electrical output from the facility(s) designated as the Project are, or will be, by the first date of the Green Attributes Delivery Period, registered with WREGIS as RPS-eligible.

(e) As of the Execution Date and throughout the Energy Delivery Period, Seller represents, warrants and covenants that the Project meets the criteria in either (i) or (ii):

(i) The Project either has a first point of interconnection with a California Balancing Authority, or a first point of interconnection with distribution facilities used to serve end users within a California Balancing Authority Area; or

(ii) The Project has an agreement to dynamically transfer electricity to a California Balancing Authority.

(f) If and to the extent that the Product sold by Seller is a resale of part or all of a PPA between Seller and one or more third parties, Seller represents, warrants and covenants that the resale complies with the following conditions in (i) through (iv) below as of the Effective Date and throughout the Energy Delivery Period:

(i) The original upstream third party contract(s) meets the criteria of California Public Utilities Code Section 399.16(b)(1)(A);

(ii) This Agreement transfers only Electric Energy and Green Attributes that have not yet been generated prior to the commencement of the Energy Delivery Period;

(iii) The Delivered Energy transferred hereunder is transferred to Buyer in real time; and

(iv) If the Project has an agreement to dynamically transfer electricity to a California Balancing Authority, the transactions implemented under this Agreement are not contrary to any condition imposed by a Balancing Authority participating in the dynamic transfer arrangement.

6.2 To the extent a change in Law occurs after the Effective Date that causes the representations, warranties, and/or covenants in Section 6.1 that continue beyond the Effective Date to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in Law.

6.3 “Commercially reasonable efforts” as set forth in this Article 6 and as applicable to Seller only shall not require Seller to incur out-of-pocket expenses in excess of twenty-five thousand dollars (\$25,000.00) in the aggregate during the Term.

ARTICLE 7
TERMINATION AND CALCULATION OF TERMINATION PAYMENT

In the event this Transaction becomes a Terminated Transaction pursuant to Section 5.2 of the EEI Agreement, then the Settlement Amount with respect to this Transaction shall not be calculated in accordance with the EEI Agreement, but instead shall be calculated as follows:

The Non-Defaulting Party shall determine its Gains and Losses by determining the Market Quotation Average Price for the Terminated Transaction. In the event the Non-Defaulting Party is not able, after commercially reasonable efforts, to obtain the Market Quotation Average Price with respect to the Terminated Transaction, then the Non-Defaulting Party shall calculate its Gains and Losses for the Terminated Transaction in a commercially reasonable manner by calculating the arithmetic mean of the quotes of at least three (3) Broker or Index Quotes based on the offers to sell or bids to buy, as applicable, obtained for transactions substantially similar to the Terminated Transaction. Such Broker or Index Quotes must be obtained assuming that the Party obtaining the quote will provide sufficient credit support for the proposed transaction. In the event the Non-Defaulting Party is not able, after commercially reasonable efforts to obtain at least three (3) such Broker or Index Quotes with respect to the Terminated Transaction, then the Non-Defaulting Party shall calculate its Gains and Losses for such Terminated Transaction in a commercially reasonable manner by reference to information supplied to it by one or more third parties including, without limitation, quotations (either firm or indicative) of relevant rates, prices, yields, yield curves, volatilities, spreads or other relevant market data in the relevant markets. Third parties supplying such information may include, without limitation, dealers in the relevant markets, end-users of the relevant product, information vendors and other sources of market information; provided, however, that such third parties shall not be Affiliates of either Party. Only in the event the Non-Defaulting Party is not able, after using commercially reasonable efforts, to obtain such third party information, then the Non-Defaulting Party shall calculate its Gains and Losses for such Terminated Transaction in a commercially reasonable manner using relevant market data it has available to it internally.

ARTICLE 8
GENERAL PROVISIONS

8.1 Buyer Audit Rights.

In addition to any audit rights provided under the EEI Agreement, Seller shall, during the Term as may be requested by Buyer, provide documentation (which may include, for example, meter data as recorded by a meter approved by the Project's governing Balancing Authority) sufficient to demonstrate that the Product has been conveyed and delivered to Buyer.

8.2 Facility Identification.

If Seller determines that any Product to be delivered in a calendar month shall be from a facility or facilities other than those in Appendix A, then Seller shall provide Notice to Buyer identifying the facility or facilities that constitute the Project within three (3) Business Days prior to the delivery of Electric Energy from such facility or facilities in such calendar month.

8.3 Governing Law.

(a) Notwithstanding any provision to the contrary in the EEI Agreement, the Governing Law applicable to this Agreement shall be as set forth herein. This Section 8.3 does not change the Governing

Law applicable to any other confirmation or transaction entered into between the Parties under the EEI Agreement.

(b) **Governing Law.** This agreement and the rights and duties of the parties hereunder shall be governed by and construed, enforced and performed in accordance with the laws of the state of California, without regard to principles of conflicts of law. To the extent enforceable at such time, each party waives its respective right to any jury trial with respect to any litigation arising under or in connection with this agreement.

For the purposes of Section 8.3(b) above, the words “party” and “parties” shall have the meaning ascribed to them in the preamble of this Confirmation, and the word “agreement” shall mean the term “Agreement” as defined in the preamble of this Confirmation.

ARTICLE 9 CONFIDENTIALITY

9.1 The confidentiality provisions in Section 10.11 of the EEI Agreement shall apply herein, except that each of Buyer and Seller may disclose the following information regarding this Confirmation, without prior Notice or consent of the other Party:

- (a) Party names;
- (b) Resource(s);
- (c) Term;
- (d) Project name, location(s), and information in Appendix A;
- (e) Capacity of each facility designated as the Project;
- (f) The fact that a facility designated as the Project is on-line and delivering;
- (g) Delivery Point;
- (h) The quantity of Product expected or actually delivered under this Confirmation; and
- (i) Information provided by Seller pursuant to Section 8.1 of this Confirmation

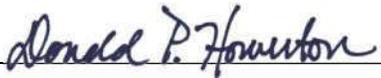

9.2 The Parties agree that the Agreement may be shared on a confidential basis, without prior Notice or consent of the other Party, with the Parties’ counsel and advisors.

9.3 Except as set forth in this Article 9 and the EEI Agreement, each Party shall provide prior Notice to the other Party of disclosure of confidential information of such other Party for purposes of compliance with any applicable regulation, rule, or order of the CPUC, Federal Energy Regulatory Commission, CEC, or other Governmental Authorities.

STC REC-1: Transfer of Renewable Energy Credits

Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Period of this Agreement the renewable energy credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law.

STC REC-2: Tracking of RECs in WREGIS

Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under this contract.

- 2.4 No New Construction. Seller does not intend to construct any new facilities in California to meet its supply obligations hereunder. Notwithstanding the foregoing, to the extent that Seller constructs any new facilities in California to meet its supply obligation hereunder, Seller covenants and agrees that the construction and operation of such facility(ies) will be in accordance with any and all Applicable Law.
- 2.5 Resources. For Category 1 Renewable Energy and Carbon Free Energy delivered under this Confirmation, Seller shall use Specified Sources of Power. For other Energy deliveries, if any, Seller may use either (i) Unspecified Sources of Power or (ii) Specified Sources of Power; provided that any such Energy delivered under this Confirmation (including incremental energy associated with Category 2 Renewable products) from Specified Sources of Power shall not be procured from nuclear or coal-fired resources. The Energy supplied in connection with any Renewable Energy shall comply with applicable California RPS requirements for such Product.
- 2.6 Delivery of WREGIS Certificates. Buyer and Seller agree that the obligation to deliver RECs hereunder shall be evidenced by the delivery of WREGIS Certificates in WREGIS. Throughout the Delivery Period, following generation of the Renewable Energy by the Project(s), Seller shall, at its sole expense, take all actions and execute all documents or instruments necessary to ensure that all WREGIS Certificates associated with the Renewable Energy Contract Quantity are issued and tracked for purposes of satisfying the requirements of the California Renewables Portfolio Standard for Buyer. Prior to the start of each calendar quarter, Seller shall provide Buyer with an indicative, non-binding forecast of the amount of RECs it expects to deliver during such calendar quarter. Such indicative, non-

binding forecast shall also identify, if known to Seller, the Eligible Renewable Energy Resource(s) that Seller expects to generate the RECs.

Seller shall comply with all Applicable Law, including, without limitation, the WREGIS Operating Rules, regarding the certification and transfer of such WREGIS Certificates to Buyer and Buyer shall be given sole title to all such WREGIS Certificates. The Parties acknowledge and agree that, as of the Effective Date, the WREGIS Certificates associated with the Renewable Energy Contract Quantity for a month are not available for transfer to Buyer until approximately ninety (90) days after the end of such month. Seller shall transfer such WREGIS Certificates in a timely manner after such WREGIS Certificates are available for transfer to Buyer and in any event no later than May 1 following the delivery year.

Upon receiving written or electronic confirmation from WREGIS that a transfer order has been initiated by Seller, Buyer shall confirm such transfer order in WREGIS within fourteen (14) days to the extent that the WREGIS Certificates included in such transfer conform to the specifications reflected in this Confirmation. In the event that certain WREGIS Certificates fail to conform to the specifications reflected in this Confirmation, Buyer shall be entitled to reject the transfer of any non-conforming WREGIS Certificates and Seller shall promptly replace the non-conforming WREGIS Certificates with an equivalent amount of WREGIS Certificates of the same REC Vintage and that meet the specifications reflected in this Confirmation; provided, however, that if replacement WREGIS Certificates are not immediately available, Seller may provide replacements once available, but in any event shall provide replacement WREGIS Certificates to Buyer within ninety (90) days after Seller's rejection of such non-conforming WREGIS Certificates.

Upon either Party's receipt of notice from WREGIS that a transfer of WREGIS Certificates was not recognized, that Party will immediately notify the other Party, providing a copy of such notice, and both Parties will cooperate in taking such actions as are necessary and commercially reasonable to cause such transfer to be recognized and completed. Each Party agrees to provide copies of its records to the extent reasonably necessary for WREGIS to verify the accuracy of any fact, statement, charge or computation made pursuant hereto if requested by the other Party.

- 2.7 Retirement of RECs. To facilitate compliance with obligations of suppliers of Renewable Energy as first deliverers of electricity, as defined in Title 17, California Code of Regulations ("CCR") Section 95802, to comply with mandatory greenhouse gas reporting requirements in Title 17 CCR Section 95101 et seq., and to comply with the requirements of the Cap and Trade Regulations in Title 17 CCR Section 95111 and 17 CCR Section 95852 with respect to such Renewable Energy, Buyer agrees to retire the RECs purchased from Seller hereunder for each renewable generation period and to provide WREGIS reports to Seller by no later than May 15 of the year following delivery that (1) evidence retirement of the RECs and (2) provide REC serial numbers.

2.8 **RPS Adjustment.** The Parties acknowledge that the RPS Adjustment is currently applicable to the Category 2 Renewable Product. In the event that the RPS Adjustment is eliminated from the Cap and Trade Regulations and is no longer applicable to the Category 2 Renewable Product, the Parties agree to discuss in good faith amendments to this Transaction. In the event that the Parties are unsuccessful in revising or amending this Transaction or unable to agree upon a mutually acceptable resolution within thirty (30) days after the request of either Party to amend the Transaction pursuant to this Section 2.8 by either Party, either Party may, by written notice to the other, immediately terminate the undelivered portion of Renewable Energy Contract Quantities of Category 2 Renewable Product without penalty, termination payment or liability of either Party.

3. **DELIVERY PERIOD.** This Confirmation shall be in full force and effect as of the Effective Date. The terms set forth herein shall apply from the Start Date through the End Date, which entire period will comprise the Delivery Period. This Confirmation shall terminate on the date on which both Parties have completed the performance of their obligations hereunder, unless earlier terminated pursuant to the terms hereof.

4. **DELIVERY POINT.**

Product	Delivery Point
Energy	TH_NP15_GEN-APND
